

## You can make a BIG difference. Be a leader.

### Named and endowed gifts

Leadership and endowed giving is transformative support that ensures the Center for Public Service has the resources to continue being a force for positive change within the New Orleans community—and the world. Your gift may support the center's mission to promote public service generally or specify a particular cause that is important to you. Your investment will empower our efforts to lead the way to a new era of civic engagement.

### Parents Civic Engagement Fund

Started with a seed gift of \$1 million from the parents of a Tulane student, this fund is supported by parents who embrace their individual student's efforts in public service and civic engagement. This endowment supports public service initiatives at Tulane, and we are halfway to our \$3 million goal. With your support, this fund has the potential to become a national model for supporting the engagement of university students in their communities and beyond.
