RESOLUTION

IT IS RESOLVED:

Certain individuals have come forward to provide information about the policies, practices and personnel within the Domestic Violence Intervention Project. No such individual, their property or families will be subjected to any harassment, threats of harm or harm by any person associated in any way with the Domestic Violence Intervention Project.

It is important from the position of the Board of Directors that any individual have an opportunity to come forward to discuss the policies, practices and personnel within the Domestic Violence Intervention Project. If anyone associated in any way with the Domestic Violence Intervention Project harasses, threatens to harm or harms such individuals, their property or families, the executive committee may consider such actions to be a violation of this resolution and will promptly remove such individual from any association with the Domestic Violence Intervention Project or its functions until the Board of Directors determines what, if any, further association such individual may have with the Domestic Violence Intervention Project or its functions.

The mission of the Domestic Violence Intervention Project is to protect individuals from violence and threats of violence. This resolution is in furtherance of that mission.
