All students who prepare a thesis in partial fulfillment for a graduate degree (PhD, MS, MA, MFA, MLA, MProS) must submit a digital copy of their approved thesis or dissertation, 
**complete with committee signatures**, to the Howard Tilton Memorial Library Theses and Dissertations Archive ([http://library.tulane.edu/dissertations_and_theses/](http://library.tulane.edu/dissertations_and_theses/)), in addition to the current hard copy requirement. Failure to do so by the official date of certification for degree (as established by the Registrar’s Office) may result in delay of degree conferral.

This policy does not preclude submission of the thesis or dissertation to other digital repositories such as ProQuest, nor does it prevent schools or programs from imposing additional thesis or dissertation archiving requirements. Care should be exercised, however, to ensure that all copies are identical, as the version deposited with Howard Tilton Memorial Library, will be considered the official version for the degree.

Further details regarding format, personal information, and embargo periods are provided on the archives website.
