**PROJECT OVERVIEW:**

The project area includes McAlister Place [currently referred to as McAlister Drive] from Freret Street to the Drill Road Crossing, as well as McAlister Plaza [the area between McAlister Auditorium and the University Quad].

McAlister Place will be transformed into a pedestrian way with lush, native plantings. Lighting will be added for security and atmosphere, highlighting the canopy of the allee of live oaks that line the Place.

Two key elements of the project will be a new threshold plaza at Freret Street and a newly extended plaza in front of McAlister Auditorium, projecting into the Quad. The former will act as a threshold into the middle campus and a gathering space for pedestrians and the latter will provide a much-needed social amenity and enhancement to the Quad that can be used for performances and gatherings.
