

Tulane University Police Department

Non-Emergency: (504) 865-5381

Emergency: (504) 865-5911

The TUPD wants to make everyone aware of the recent bicycle thefts on campus.

In November of 2016, there was a 60% increase in bicycle thefts on campus.

In this reporting period, there was a 150% increase compared to before the Thanksgiving Holiday.

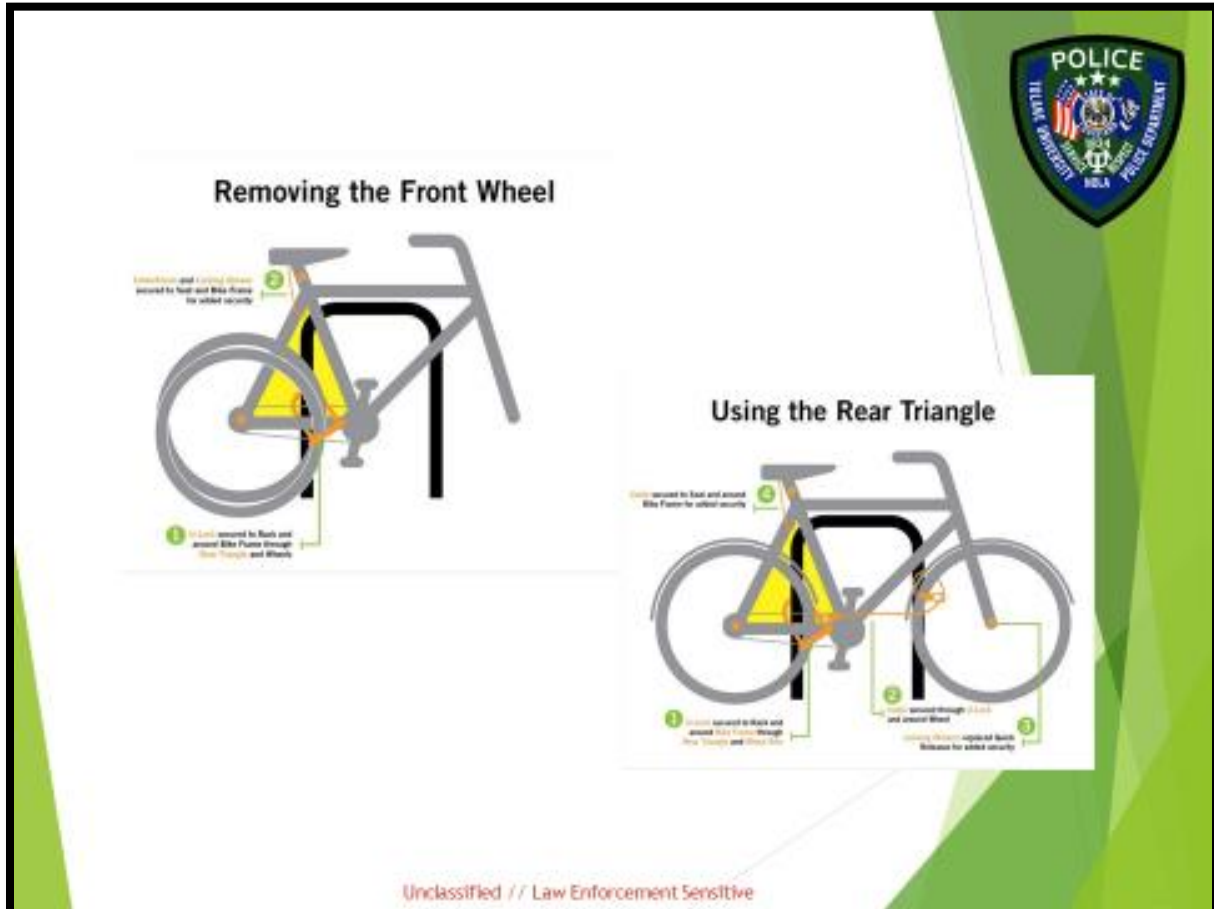

The TUPD is asking everyone on campus “Take a Stand” against bike theft on campus. Here are some strategies to consider in an effort to decrease bike theft (please see next page).

Tulane University Police Department

Non-Emergency: (504) 865-5381

Emergency: (504) 865-5911

Consider using a “U-Lock” (they are available at the LBC Bookstore). Bolt cutters can be used to easily cut through cables and chains.

To maximize your bike’s security, it is recommended that you use either the “front” or “rear” triangle locking methods as shown above. Either method will allow both wheels to be secured as well as the seat.

Always use the bike racks as a means to secure your bike. This gives you a “solid fixture” to secure your bike to.

If anyone observes a bicycle on campus that is unoccupied and not secured properly, please notify the TUPD at: (504) 865-5381.
