New Faculty: Uptown Campus 2007-08
August 2007

Dear new colleagues,

Welcome to the Tulane community! As you scan the new faculty roster assembled in this handbook, consider that you have joined an institution that has flourished for over a century and a half. It is a wonderful and fine tradition of which you now become a part.

Ours is a university that is nationally and internationally recognized as a leading research and art-making institution -- one that is innovative, trend-setting, and student-centered. Our schools and colleges offer a wide array of undergraduate, graduate, and professional degrees in architecture, business, law, liberal arts, medicine, public health and tropical medicine, science and engineering, and social work.

Tulane strives to connect its values and mission to the needs of the city of New Orleans, the state of Louisiana, and the Gulf Coast region -- as well as to those of the nation and the wider world. Community involvement is now especially important as the University participates in the rebirth of our city and state in the wake of the devastation wrought by Hurricanes Katrina and Rita. We are very proud that Tulane faculty and staff lend their expertise to rebuilding efforts while at the same time our students gain real-world experience putting their rapidly maturing skills to use.

Excellence in research and art-making, outstanding teaching and mentorship, and the striking diversity of the degree programs we offer help attract to Tulane the very best faculty and students from across our nation and from around the world. When also given the opportunity to be involved in one of the largest urban renewal projects in history, our students ultimately have an educational experience found only in New Orleans, only at Tulane. In the final analysis, it is you and all of the faculty and staff of our University who make Tulane the truly extraordinary place that it is today; it is the students and the wider communities we serve that are our greatest legacy.

I hope that your years at Tulane are inspiring, productive and fulfilling. I wish you every success in all your endeavors.

Most Cordially,

Michael A. Bernstein
Senior Vice President for Academic Affairs and Provost
New Uptown Faculty
2007-08

Max Adrien, Ph.D.
School of Liberal Arts
Visiting Assistant Professor, French and Italian

Max Adrien received his B.A. in Philosophy, Business and Theology from Loyola University Chicago, his M.A. in French Literature and Civilization from The University of Illinois Chicago, his D.E.A. [Diplome d'Etudes Approfondies] in Littérature et Civilisation Françaises from Université de la Sorbonne Nouvelle - Paris III, Paris, France, and his Ph.D. in French Literature &Civilization: Seventeenth Century Classical Fables, Theater and Moralists, and Medieval Literature (11th—13th centuries epic and courtly literatures) from Tulane University. In 2002-04 Dr. Adrien was Visiting Instructor of French Language and Literature at Carleton College, in 2004-06 he was a Visiting Instructor of French at New College of Florida, and in 2006-07 he was an Adjunct Assistant Professor of French at Tulane University. Dr. Adrien's publications include articles in Dalhousie French Studies and Olifant.

Archie W. Ammons, Ph.D.
School of Science and Engineering
Visiting Assistant Professor, Ecology and Evolutionary Biology

Archie Ammons received a B.S. in Marine Biology from Texas A&M University at Galveston and a Ph.D. in Zoology from Texas A&M University. His research specialty is in deep-sea ecosystems and marine invertebrates.

William Arceneaux, Ph.D.
School of Liberal Arts
Distinguished Visiting Professor of History

William Arceneaux has just completed 20 years as president of the Louisiana Association of Independent Colleges and Universities, of which Tulane is a charter member. He was Louisiana's first Commissioner of Higher Education (1972-1987). His last book was nominated by the LSU Press for the Pulitzer Prize in the category of Letters and Drama and is scheduled to be released in a French edition this fall.

O. Tolga Aricak, Ph.D.
School of Science and Engineering
Visiting Assistant Professor, Psychology

Tolga Aricak received a B.S. in Counseling and Guidance from Istanbul University, an M.A. in Psychological Services in Education and Ph.D. in Educational Sciences from the Marmara University at Istanbul. He worked at Trakya University, School of Education as assistant professor between 1999 and 2006 years. In the 2006-2007 academic years, Dr. Aricak was a visiting scholar at Indiana University Bloomington, Department of Counseling, and Educational Psychology, where he conducted several research projects with colleagues. His current research is focused on cyberbullying among adolescents.

San Hla Aung, Ph.D.
School of Science and Engineering
Professor of Practice

San Hla Aung graduated from the University of Rangoon, Burma, with a Bachelor of Science degree in Civil Engineering in March 1958 and taught there for two years. He then attended the Massachusetts Institute of Technology and earned his Master of Science degree in Civil Engineering in May 1962. After teaching at the Rangoon Institute of Technology until 1988, he came to Tulane University and worked in the Civil and Environmental Engineering Department. He obtained his Ph.D. in Civil Engineering from Tulane in May 2000 and is now a Professor of Practice in the School of Science and Engineering. His areas of interest in research include local buckling of high strength concrete box piers and

John Armstrong, Ph.D.
School of Science and Engineering
Visiting Assistant Professor, Mathematics

John Armstrong received his doctorate from Yale in 2006, where he has been teaching for the last year. His continuing research program concerns quantum topology, studying the interactions between knot theory, category theory, representation theory, and theoretical physics. He is also active in mathematical exposition for the generally interested lay audience, writing "The Unapologetic Mathematician" online at http://unapologetic.wordpress.com
prefabricated construction with precast concrete and with wood.

Leonardo Avritzer, Ph.D.
School of Liberal Arts
Greenleaf Visiting Professor, Latin American Studies and Anthropology

Larry Catá Backer
Law School
Visiting Professor of Law

Larry Catá Backer received a B.A. in History from Brandeis University, an M.P.P. from the Kennedy School of Government, Harvard University, and a J.D. from Columbia University Law School. From 2000, he has served as Professor of Law, Pennsylvania State University, and Dickinson School of Law. From 1991 through 2000 he served as Professor of Law and Executive Director of the Comparative and International Law Center, University of Tulsa College of Law. His current research is focused on globalization law.

Gergely Bana, Ph.D.
School of Science and Engineering
Visiting Assistant Professor, Mathematics

Gergely Bana received an M.Sc. equivalent Diploma in Physics from Eötvös University, Budapest, an M.A. in Statistics and then a Ph.D. in Mathematics from the University of Pennsylvania in 2004. Subsequently, he was a post-doctoral fellow in Mathematics at the University of Pennsylvania and then in Computer Science at the University of California, Davis. His current research is focused on symbolic and complexity-theoretic methods in network security.

Chad R. Bhatti, Ph.D.
School of Science and Engineering
Postdoctoral Fellow, Mathematics

Chad R. Bhatti is a NSF VIGRE Postdoctoral Researcher in the Department of Mathematics at Tulane University. Dr. Bhatti completed his Ph.D. in Statistics at the George R. Brown School of Engineering at Rice University in May 2007. His dissertation was titled "Statistical Models for Intraday Trading Dynamics." Dr. Bhatti's primary research interests are in the areas of statistics, high-frequency finance, and econometrics.

Thomas C. Bishop, Ph.D.
School of Science and Engineering
Research Associate Professor, Center for Computational Science

Tom Bishop was recruited to Tulane and Xavier Universities under the Joint Faculty appointments program. He is a founding member of the New Orleans Protein Folding Intergroup and the Center for Computational Science.He is a computational molecular biologist and employs high performance parallel computers and mathematical modeling to investigate biomolecular complexes. His primary research interests are the structure and dynamics of DNA and chromatin and how they relate to genetic function and dysfunction (e.g. transcription, regulation, replication and repair). He studies molecular events in the hormone response mechanism as a model system for this research. This mechanism regulates a number of physiologic processes, including cell differentiation, growth, development and brain function. It therefore plays a critical role in human health and disease. He has developed a multiscale model of chromatin that bridges between atomic and continuum scales. It is being utilized to investigate nucleosome stability and chromatin folding for entire genomes and to rapidly assemble individual nucleosomes for subsequent analysis by all atom molecular dynamics simulations. Dr. Bishop has received support for this research from the Louisiana Board of Regents, the National Science Foundation, and the National Institutes of Health. Current support is from the Louisiana Board of Regents Research Competitiveness Program, the recently awarded La Board of Regents and NSF EPSCoR Research Infrastructure Improvement: Information Technology Award and an NIH R01.

Michael A. Bernstein, Ph.D.
School of Liberal Arts
Professor, History
Senior Vice President for Academic Affairs and Provost

Michael Bernstein comes to Tulane University from the University of California, San Diego, where he was Dean of Arts and Humanities and a professor (and former chair) of History. His teaching and research interests focus on the economic and political history of the United States, macroeconomic theory, industrial
organization economics, and the history of economic theory. His publications explore the connections between political and economic processes in modern industrial societies, as well as the interaction of economic knowledge and professional expertise with those processes as a whole. Along with numerous articles and anthology chapters, he has published four volumes: *The Great Depression: Delayed Recovery and Economic Change in America, 1929-1939; Understanding American Economic Decline* (co-edited with David Adler); *The Cold War and Expert Knowledge: New Essays on the History of the National Security State* (co-edited with Allen Hunter); and *A Perilous Progress: Economists and Public Purpose in Twentieth Century America*.

Mary Blue, Ph.D.
School of Liberal Arts
Visiting Assistant Professor, Communication

Mary Blue completed her doctoral work at the Louisiana State University in 1981. Her research has been primarily in communication in broadcast and film and she has two articles coming out in communication journals in Fall 2007 and Spring 2008. She just completed a research grant from the National Association of Broadcasters.

Michael Blum, Ph.D.
School of Science and Engineering
Assistant Professor, Ecology and Evolutionary Biology

Michael Blum received a B.A. in Integrative Biology from U.C. Berkeley and a Ph.D. in Zoology from Duke University. From 2003 through 2006, Dr. Blum was a federal postdoctoral fellow at the Molecular Ecology Research Branch of the U.S. Environmental Protection Agency. During this time, Dr. Blum initiated national research programs on the effects of land use, invasive species, and global environmental change on aquatic ecosystems. His current research focuses on responses of stream fishes to land use and salt marsh responses to global environmental change.

Brenda Brasher, Ph.D.
School of Liberal Arts
Visiting Professor, Sociology

Brenda Brasher comes to Tulane University from the Sociology Department, University of Aberdeen, Scotland. She completed her doctoral work in Social Ethics in 1996 at the University of Southern California. A former Fulbright Scholar/Researcher, she is the author of two books: *Godly Women: Fundamentalism and Female Power* (Rutgers University Press), and *Give Me That Online Religion* (Jossey Bass), as well as chief editor of the Encyclopedia of Fundamentalism (Routledge) and co-author (with Lee Quinby) of the recently published *Gender and Apocalyptic Desire* (Equinox Press). Her current research focuses on ethnicity, globalization and identity.

Gary H. Brooks, Ph.D.
School of Liberal Arts
Visiting Assistant Professor, Political Science

Gary H. Brooks received his B.A. degree in Political Science from Millsaps College, his M.A. degree in Political Science from Tulane University, his Ph.D. degree in Political Science from the University of Kansas, and the M.Div. degree from Union Theological Seminary in Virginia. Brooks, an ordained minister in the Presbyterian Church (USA), taught at the College of Charleston, the University of Arkansas -- Little Rock, and the University of Mississippi and as Vice President for Academic Affairs at Belmont Abbey College. Southern politics, American protest movements, and religion in American politics are special interests.

Richard Campanella
School of Science and Engineering
Associate Director, Center for Bioenvironmental Research
Research Professor, Earth and Environmental Sciences

Richard Campanella is a geographer and mapping scientist and specializes in GIS, remote sensing, and spatial analyses applied to both the physical and social sciences. Campanella’s expertise involves the historical geography of New Orleans, a topic on which he has published three critically acclaimed books including *Geographies of New Orleans: Urban Fabrics Before the Storm* (2006), winner of the Louisiana Endowment for the Humanities “Book of the Year” Award. Campanella has published scholarly articles in the *Journal of American History*, *Journal of Architectural Education*, *Technology in Society*, *EOS Transactions-American Geophysical Union*, and
Photogrammetric Engineering and Remote Sensing. He teaches classes in urban geography, historical geography, and GIS applications.

Albert A. Cannella Jr., Ph.D.
A. B. Freeman School of Business
Koerner Chair in Strategy and Entrepreneurship

Albert Cannella Jr. received his MBA from the University of Northern Iowa in 1985 and his Ph.D. from Columbia University in 1991. Prior to joining Tulane, he served as Hahnco Professor of Strategic Management and Department Head at Arizona State University. He served on the faculty of Texas A&M University from 1989 until 2004, where he was B. Marie Oth Professor of Strategic Management. He was Program Chair for the Business Policy and Strategy division of the Academy of Management in 1999, and President of the division in 2001. From 1998 through 2001 he was head of the Management Department’s Ph.D. program at Texas A&M University, and from 2000 to 2004 he served as the Director of the Texas A&M Center for New Ventures and Entrepreneurship. He was Associate Editor of Academy of Management Review from 1999-2002. He currently serves on the editorial review boards of Academy of Management Journal, Journal of Management, and Administrative Science Quarterly. His research has appeared in outlets such as the Academy of Management Journal, Academy of Management Review, Strategic Management Journal, Journal of Management, and Journal of Financial Economics. He teaches entrepreneurship, strategic management, research methods, and project management.

Gaile S. Cannella, Ed.D.
Research Professor
A.B. Freeman School of Business

Gaile Cannella completed her doctoral work in education at the University of Georgia in 1979. For the past three years she was a professor of qualitative research methods at Arizona State University and before that a tenured professor at Texas A&M University, where she served as the institutional chairperson of the research review board. She has published 2 authored books, 2 edited books, and a range of chapters and articles in journals like Qualitative Inquiry and Cultural Studies-Critical Methodologies. Her focus is the development of critical social science research methods with an emphasis on feminist, post-structural, and post-colonial perspectives.

Mark Carson, Ph.D.
School of Liberal Arts
Visiting Assistant Professor, History

Mark Carson completed his doctoral work in 2003 at Louisiana State University with the successful defense of his dissertation "Beyond the Solid South: Southern Members of Congress and the Vietnam War." He is presently revising his dissertation for publication.

John Caruso, Ph.D.
School of Science and Engineering
Professor of Practice, Ecology and Evolutionary Biology

John Caruso returned to Tulane’s Department of Ecology and Evolutionary Biology in 2006. He previously held full-time teaching positions at the University of New Orleans, the Louisiana Universities Marine Consortium, Loyola University, and Lafayette College. He received his Ph.D. from Tulane in 1977 and has served as Interim Curator of Fishes and Adjunct Professor at Tulane. John is a marine ichthyologist who studies the systematic and distribution of deep-sea anglerfishes. He is recognized as the world authority on chaunacid and lophiid anglerfishes.

Marco A. Castaneda, Ph.D.
School of Liberal Arts
Assistant Professor, Economics

Marco A. Castaneda received a B.A. with emphasis in Mathematics and Economics from the University of Alaska in Juneau and an M.A. and Ph.D. in Economics from Washington University in St. Louis. His research is focused on the effects of asymmetric information and incomplete contracts on the organization of production.

Teri F. Chalmers, Ph.D.
School of Liberal Arts
Lecturer, French and Italian

Teri Chalmers received a B.A. in Italian and Linguistics from Newcomb College of Tulane University, an M.A. in Italian from UCLA, and a Ph.D. in Medieval Romance Languages and Literatures at Tulane University. Her chief interests are French, Italian and Spanish narratives of the 13th and 14th centuries, and translating. She is
completing a translation of an 18th century French manuscript describing the travels of a Frenchman to Saint-Domingue and Louisiana, including New Orleans. The author describes the flora and fauna of the Gulf Coast and the Mississippi River region, the Native American tribes found there, and other aspects of life in the new colony.

Ronan Chalmin, Ph.D.
School of Liberal Arts
Visiting Assistant Professor, French and Italian

Ronan Chalmin completed his dissertation in French literature at Yale University in 2005. His dissertation, "Corruption and the Chemistry of the Enlightenment", shows how the complex chemistry of corruption, the dark sun of the French Enlightenment, permitted that period to generate its brightest light. Dr. Chalmin is currently working on a new project: Libertine Architectures.

Sarina Chen, Ph.D.
School of Liberal Arts
Assistant Professor, Jewish Studies

Sarina Chen wrote her doctoral work in Jewish Folklore department at the Hebrew University of Jerusalem, where her dissertation "Between Poetics and Politics - Vision and Paxis in Current Activity to Construct the Third Temple" was supported by a Varburg Fellowship.

Shane Courtland, Ph.D.
School of Liberal Arts
Visiting Assistant Professor, Philosophy

James Cronin, Ph.D.
School of Science and Engineering
Professor of Practice, Cell and Molecular Biology

James Cronin earned a B.A. in Psychology in 1980 from Loyola University, New Orleans. An M.S. followed by a Ph.D. in Physiological Psychology (Neuroscience) was awarded from Tulane University in 1990. After completing his graduate course work, he conducted research at UCLA in Los Angeles under the direction of Dr. F. Edward Dudek, who had moved there from Tulane. He worked in industry until 2001, until returning to research at the Gene Therapy Program of LSU Medical School in New Orleans. James began teaching at Tulane for the Cell and Molecular Biology Department in 2006.

Brian James DeMare, Ph.D.
School of Liberal Arts
Visiting Assistant Professor, History

Brian DeMare completed his doctoral work in History in 2007 at the University of California at Los Angeles. His dissertation, "Turning Bodies and Turning Minds: Land Reform and Chinese Political Culture, 1946-1952" was supported by a Fulbright-Hays fellowship as well as an NSEP grant. Professor DeMare is currently revising his dissertation for publication.

Alison Denham, D.Phil.
School of Liberal Arts
Visiting Professor of Philosophy

Alison Denham obtained her B.A., from UC Berkeley and her M.A. and D.Phil. from Oxford University. She is a member of the Philosophy Faculty and a permanent Fellow at St. Anne's College, Oxford University. Dr Denham is the author of a number of scholarly works in the theory of value including the book Metaphor and Moral Experience (OUP, 2000). She is currently editing a volume titled Plato on Art (Palgrave MacMillan, 2009) and completing a book on social and ethical value in contemporary conceptual art. Dr. Denham's current research interests include philosophical issues in moral psychology, with a special focus on psychopathic personality disorder. Before taking up her Fellowship at St. Anne's, she held faculty positions at Balliol and St. John's Colleges at Oxford University as well as Reed College in the U.S. Dr. Denham has twice held visiting fellowships at the Centre Nationale de Recherche Scientifique in Paris, France. She will offer courses in legal ethics and moral psychology while at Tulane. In addition to her scholarly work, she plays the violin and viola and is the curator and director of Oxford's Mary Ogilvie Gallery, exhibiting contemporary artists from both Europe and the U.S.

Sean Desilets, Ph.D.
School of Liberal Arts
Postdoctoral Teaching Fellow, English

Sean Desilets received his B.A. from the University of Massachusetts at Amherst in 1992, an M.A. in English from Tufts University in 1997 and a Ph.D. in English from Tufts University in 2006. His dissertation, "Seed of Fire: Immanence in Cinema and the Novel," considers the persistence of theological models of
presence in Victorian novels and in films from the first half of the twentieth century. His essay on Carl Th. Dreyer’s *The Passion of Joan of Arc* appeared in *Camera Obscura*, and he has presented his work at several Northeast Modern Language Association Conferences, at Harvard University’s Center for Literary and Cultural Studies, and at the Center for the Study of Theory and Criticism at the University of Western Ontario.

**Shi Di, Ph.D.**
School of Science and Engineering  
Research Assistant Professor, Cell and Molecular Biology

Dr. Shi Di received her Ph.D. in physiological psychology from the University of California, Los Angeles, in 1991. Her training and research interests are focused on electrophysiology and neurophysiology. She has applied the whole cell patch clamp technique in the study of the hypothalamic-pituitary-adrenal system. In conjunction with other advanced molecular and imaging techniques, her research has made progress in understanding steroid hormone regulation of the hypothalamic neuroendocrine system.

**Claire Moore Dickerson, J.D., LL.M. in Taxation**
Law School  
Visiting Professor, Sen. Breaux Chair in Law

Claire Dickerson earned her J.D. from Columbia School of Law, where she was a Stone Scholar, her A.B. from Wellesley College, where she was a Durant Scholar (equivalent of magna cum laude), and an LL.M. in Taxation from New York University School of Law. Most recently, she has been professor of law and Arthur L. Dickson Scholar at Rutgers University School of Law – Newark. Before teaching, she was a partner in the international law firm of Coudert Brothers where she specialized in international commercial transactions. Her scholarship has applied socioeconomic principles to business related areas of law, with a particular focus on standards of performance, in both the domestic and international realms. Most recently, she has been studying the OHADA system of business laws, uniform over 16 countries in West and Central Africa.

**Gustavo Didier, Ph.D.**
School of Science and Engineering  
Assistant Professor, Mathematics

Gustavo Didier received a Ph.D. in Statistics from the University of North Carolina at Chapel Hill in 2007. His current research interests are in Stochastic Processes and Time Series Analysis, with a focus on Wavelets, Long Range Dependence and Multivariate Methods.

**Robert S. Dotson, Ph.D.**
School of Science and Engineering  
Professor of Practice, Cell and Molecular Biology

Robert Steven Dotson was born in Kingsport, Tennessee and grew up in the foothills of Appalachia. He received a B.S. in Biochemistry in 1989 from Clemson University, Clemson, South Carolina and a Ph.D. in Neuroscience in 1998 from Tulane University. He worked as an academic counselor at Loyola University New Orleans and supervised a microscopy laboratory at Tulane before joining the Department of Cell and Molecular Biology, where he currently teaches both undergraduate and graduate courses. In his spare time, he enjoys painting and bicycling.

**Kate Drabinski, Ph.D.**
School of Liberal Arts  
Postdoctoral Teaching Fellow, Women’s Studies

Kate Drabinski received her Ph.D. in Rhetoric with a Designated Emphasis in Women, Gender and Sexuality from the University of California at Berkeley upon completion of her dissertation, “Ancient Bodies, Contemporary Selves: Reading Gender in Late Antique Christian Asceticism,” in December 2006. Her current research brings her dissertation work on ancient ethical and political practices into conversation with contemporary theories of embodiment and transgender subjectivity.

**Meredith Dudley, Ph.D.**
School of Liberal Arts  
Stone Center for Latin American Studies  
Visiting Assistant Professor, Latin American Studies

**Markus Eberl, Ph.D.**
School of Liberal Arts  
Postdoctoral Teaching Fellow, Anthropology

Markus Eberl received his M.A. in Anthropology and Latin American Studies
in 1999 at the Rheinische Friedrich-Wilhelms-Universität in Bonn, Germany, with a thesis on death and burial in Classic Maya culture that was subsequently published (2005) in a revised Spanish translation. In 2007, he completed his doctoral thesis “Community heterogeneity and integration: The Maya sites of Nacimiento, Dos Ceibas, and Cerro de Cheyo (El Peten, Guatemala) during the Late Classic” at the Department of Anthropology at Tulane University. He has been conducting archaeological fieldwork in Germany, Mexico, and Guatemala and has been working with Maya glyphic inscriptions. His current research focuses on communities, social aspects of technology, and elite-commoner relationships in past societies.

**Minghu Fang, Ph.D.**
*School of Science and Engineering*
*Postdoctoral Fellow, Physics*

Minghu Fang received his Ph.D. from Zhejiang University in China 1992, and did postdoctoral work at Kyoto University. He was most recently a Professor of Physics at Zhejiang University. His research interests include Experimental Research on superconductivity, Magnetism of low dimension materials, and Novel physics of strongly correlated electron systems.

**Chris Ferro, Ph.D.**
*School of Liberal Arts*
*Visiting Assistant Professor, Philosophy*

Chris Ferro did his doctoral work in the philosophy department at the University of Chicago. He defended his dissertation, "The Possibility of Practice and Practical Thought," in August of 2007. His research interests include the nature of human agency; the metaphysics of mind, value, and personhood; and the history of modern philosophy.

**Keith Finlay, Ph.D.**
*School of Liberal Arts*
*Assistant Professor, Economics*

Keith Finlay completed his doctoral work in Economics in 2007 at the University of California, Irvine. His dissertation, "External Effects of Incarceration in Labor and Marriage Markets," explored the effect of greater employer access to criminal history records on the labor market outcomes of ex-offenders and non-offenders. Dr. Finlay is currently working on projects examining low skill labor markets and the labor market effects of pre-employment screening.

**Luciana C. Fiorini**
*School of Liberal Arts*
*Visiting Assistant Professor, Economics*

Born in Brazil, Luciana Fiorini entered the Federal University of Minas Gerais in 1992 and received her B.A. in 1996. That same year she entered the University of São Paulo to pursue an M.A. in Economics, which she received in 2000. Entering Brown University in 2001, she received her M.A. in 2002 and Ph.D. in 2007. Her research interests include Economic Theory, Microeconomics and Financial Economics.

**Holly Flora, Ph.D.**
*School of Liberal Arts*
*Visiting Professor, Art*

Holly Flora received her Ph.D. at the Institute of Fine Arts, New York University in 2005. Her research explores devotional art in late medieval Italy, and has been supported by fellowships from the American Association of University Women, the Metropolitan Museum of Art, the Scuola Normale Superiore in Pisa, Italy, and the Andrew Mellon Foundation. Her articles have appeared in Gesta, Bolletino Storico Pisano, and Studies in Iconography, and she is currently at work on a book on gender and illustrated manuscripts of the Meditationes Vitae Christi. Before coming to Tulane, Dr. Flora worked as a curator and lecturer in New York at the Museum of Biblical Art, The Frick Collection and The Cloisters.

**Nicole Gasparini, Ph.D.**
*School of Science and Engineering*
*Assistant Professor, Earth and Environmental Science*

Nicole Gasparini received her B.S. in Applied Mathematics and B.A. in Physical Geography from the State University of New York at Buffalo. She received her S.M. and Ph.D. in Civil and Environmental Engineering from Massachusetts Institute of Technology. Dr. Gasparini was a post-doctoral fellow in Geology and Geophysics at Yale University for two years. She spent one year working on Capital Hill as the...
Geological Society of America/United States Geological Survey Congressional Fellow. Before coming to Tulane, she worked as a post-doc in the School of Earth and Space Exploration at Arizona State University. Dr. Gasparini’s research focuses on river erosion and landscape evolution.

**Daniel Gates, Ph.D.**  
*School of Liberal Arts*  
*Visiting Professor, English*

Daniel Gates received a B.A. in English from Seattle Pacific University and a Ph.D. in English from the University of Notre Dame. He has published articles on despair in Doctor Faustus and on the religious culture of Renaissance England; currently he is working on a book on early modern emotions entitled Fevers of the Soul. Prior to coming to Tulane, he taught courses in early modern literature at Rhodes College.

**Abigail Gaunt, J.D.**  
*School of Law*  
*Legal Instructor*

Abigail Gaunt received a B.A. from Dartmouth College in 2000 and a J.D. from Fordham University in 2005. Prior to joining the Legal Research & Writing faculty at Tulane Law School in 2007, Ms. Gaunt completed a judicial clerkship on the US District Court for the Southern District of New York, followed by another clerkship on the US Court of Appeals for the Fifth Circuit. During law school, she worked at the New York County District Attorney’s Office, the Legal Aid Society (Juvenile Rights Division), and for a major New York law firm. Prior to law school, she worked as a Victim Witness Advocate at the Suffolk County District Attorney’s Office in Boston. She is a member of the New York State Bar.

**Lisa Rengo George, Ph.D.**  
*School of Liberal Arts*  
*Lecturer, Classics*

Lisa George received her B.A. from Vassar College and M.A. and Ph.D. from Bryn Mawr College in Classical Studies. Her most recent publication is a book, *Prostitutes in Plautus*. Her specialties include Homer, Gender Studies and Greek and Roman Drama.

**So’Nia L. Gilkey, Ph.D., LCSW**  
*School of Social Work*  
*Assistant Professor, Social Work*

So’Nia Gilkey received a B.S. in Psychology from Alcorn State University in 1990, a Master of Social Work from Clark Atlanta University in 2000, and a Ph.D. in Social Work from the University of Pittsburgh in June 2007. Dr. Gilkey was an International Fellow for the Training of Women and Development Research Project at Clark Atlanta University and has worked as a social work mental health clinician for the past 13 years. She has been designated as an approved mental health service provider for the Greater New Orleans Public Health Services Corps program, and is soon to receive an appointment as a mental health clinician for the U.S. Public Health Services Corps. She currently publishes on issues related to the psychosocial impact of disaster and critical incident in children and families, and pediatric traumatic brain injury and its impact on child and family recovery. In addition, she conducts ongoing research on homelessness, African-American male youths and mental health, the intersections of race and socio-economic indicators in vulnerable groups, and current housing policies and access to affordable housing in distressed communities.

**Antonio Gómez, Ph.D.**  
*School of Liberal Arts*  
*Visiting Assistant Professor, Spanish and Portuguese*

Antonio Gómez (Mendoza, Argentina) recently received his Ph.D. in Latin American Literature from the University of Pittsburgh. His research interests include the discourse of exile in Latin American culture, especially in Cuba and Argentina, cinematic representations of trauma in Argentine cinema, and the writing of recent history in a postnational context. He is currently revising his dissertation *El discurso latinoamericano del exilio: extraterritorialidad y novela en Argentina y Cuba desde los años setenta* for publication.

**Vijaya Gopu, Ph.D.**  
*School of Science and Engineering*  
*Professor, Center for Bioenvironmental Research*

Dr. Vijaya (VJ) Gopu is Distinguished Scholar in the Center for Bioenvironmental Research at Tulane University. He also serves as the Associate Director for External Programs at Louisiana Transportation Research Center (LTRC). Dr. Gopu served as the Chair of the Civil
and Environmental Engineering Department at Tulane University from 2003-2007. Prior to joining Tulane University, he was the Chair of Civil and Environmental Engineering and Associate Director for the University Transportation Center at the University of Alabama in Huntsville.

Dr. Gopu served as the Program Director for the Structural Systems and Engineering in the Directorate of Engineering at the National Science Foundation from 1998-2001.

He holds the Formosa Plastics Distinguished Professor Emeritus position at LSU where he served for 22 years. He also served as a visiting professor at the Royal Institute of Technology in Stockholm, Sweden, and as a visiting scientist at Forintek in Vancouver, Canada. He received his MS and Ph.D. from Colorado State University in '72 and '75 respectively and worked as a structural consultant in Denver for three years before joining the faculty ranks in 1978.

Dr. Gopu is a recipient of the International Wood Award from the Forest Products Society and numerous awards for teaching, research and professional service. His areas of research interest include structural engineering, modeling of structures, hazard mitigation, structural polymeric composites, heavy engineered timber structures, non-destructive evaluation of infrastructure systems, and building science.

He has over 160 technical papers to his credit and has supervised the research work of 45 masters and doctoral students. Dr. Gopu served as the principal investigator or co-principal investigator of over $5M of research projects funded by local, state, federal and international agencies. Dr. Gopu is active in several national and international technical committees, and has served as a member of several federal interagency working groups. He is the Chairman of the American Society of Civil Engineers Committee on Wood Research and served as the Conference Chair for the World Conference on Timber Engineering held in New Orleans in 1996. While serving at NSF, he established a joint NSF-HUD initiative in support of President Clinton’s PATH – Partnership for Advancing Technologies for Housing – program. Dr. Gopu is a registered professional engineer in the State of Louisiana and has served as a structural engineering consultant to numerous firms in the region.

James Gordley, MBA., J.D.
Law School
W.R. Irby Professor of Law

James Gordley came to Tulane Law School from Boalt Hall, University of California, Berkeley, where he served on the faculty beginning in 1978. He was a fellow at the Institute of Comparative Law at the University of Florence, an associate with the Boston firm of Foley Hoag & Eliot, and an Ezra Ripley Thayer Fellow at Harvard before beginning his teaching career.

Professor Gordley has been a Guggenheim Fellow, a Fulbright Fellow, a Senior NATO Fellow and a fellow of the Deutscheforschungsgemeinschaft. He has been a visiting professor at the Universities of Fribourg, Regensburg, Munich, Milan, and Universita Commerciale Luigi Bocconi; a visiting scholar at the Max Planck Institute for Comparative Law in Hamburg, the European University Institute in Fiesole, and the University of Cologne; and the Jean Monnet Distinguished Professor in Comparative Law at the University of Trent. He was awarded the UC Berkeley Distinguished Teaching Award in 1984 and the Rutter Award for Teaching Distinction in 2001. He is a fellow of the American Academy of Arts and Sciences and a titulary member of the International Academy of Comparative Law.

He is the author of several books, including Foundations of Private Law; An Introduction to the Comparative Study of Private Law (with Arthur von Mehren); The Enforceability of Promises in European Contract Law; Gratian, The Treatise on Laws with the Ordinary Gloss (with Augustine Thompson); and The Philosophical Origins of Modern Contract Doctrine.

Diane M. Grams, Ph.D.
School of Liberal Arts
Assistant Professor, Sociology

Diane M. Grams is the author of Producing Local Color: Ethnic Art Networks in Chicago (forthcoming University of Chicago Press) and co-editor of Entering Cultural Communities: Diversity and Change in the Nonprofit Arts (Grams and Farrell, Rutgers University Press 2008).
Her areas of expertise are the sociology of culture and organizations with a particular focus on arts producers in racial and ethnic communities. She received her Ph.D. and M.A. from Loyola University, Chicago, where she was a Schmitt Dissertation Fellow. Most recently, she was the Associate Director at the Cultural Policy Center at the University of Chicago. She has an extensive history of service, research and work in the nonprofit arts including serving as the executive director of The Peace Museum, Chicago. She has a B.A. in fine arts from Indiana University, Bloomington and is an alumna of Skowhegan School of Painting and Sculpture.

Catherine Gubernatis, Ph.D.
School of Liberal Arts
Postdoctoral Teaching Fellow, English

Catherine Gubernatis received a B.A. in English and History from Mount Holyoke College and completed both her masters and her doctoral work at The Ohio State University. She is currently working on expanding her dissertation "The Epistolary Form in Twentieth-Century Fiction" into a book.

Michael Guill, Ph.D.
School of Science and Engineering
Visiting Assistant Professor, Ecology and Environmental Biology

Michael Guill received a B.A. in Environmental Science from the University of Virginia in 1990, and an M.S. and Ph.D. in Ecology and Evolutionary Biology from Tulane in 1994 and 2002, respectively.

Michael worked at Loyola University prior to Hurricane Katrina, and has subsequently returned to his alma mater as a Visiting and Research Assistant Professor, where he has continued to teach and conduct research on freshwater fishes. Michael lives Uptown with his wife Terenia (also a Tulane alumna) and their two children, James and Mia Rose.

Khaled Helmy, Ph.D. candidate
School of Liberal Arts
Visiting Assistant Professor, Political Science

Khaled Helmy is finishing his doctoral work in Political Science at Harvard with a dissertation on the interaction of Middle Eastern religious parties with the unfolding political liberalization processes. His research focuses on democratization and the relationship between religion & politics in various types of political settings with special focus on Europe & the Middle East. In 2005-06, he held a visiting teaching position at Dartmouth College.

Louise Hornby, Ph.D.
School of Liberal Arts
Assistant Professor, English

Louise Hornby received her Ph.D. in 2007 from the Department of Comparative Literature at the University of California, Berkeley. Her work spans the fields of literature, photography, and film, which she brings together in her dissertation, "Photographic Modernism: The Pursuit of Objectivity."

Janarthanan Jayawickramarajah, Ph.D.
School of Science and Engineering
Assistant Professor, Chemistry

Janarthanan Jayawickramarajah received his BS degree (with honors) in chemistry and a minor in anthropology from the University of North Carolina at Chapel Hill in 2000. He obtained a Ph.D. in organic chemistry from the University of Texas at Austin in 2005. For his graduate work on supramolecular ensembles derived from base-pairing he received the Dorothy Banks Research Fellowship. After a short postdoctoral stint at Yale University he joined the faculty at Tulane. Currently, his research focuses on the development of bio-inspired functional supramolecules.
Karen Johannesson, Ph.D.
School of Science and Engineering
Associate Professor, Earth and Environmental Sciences

Karen Johannesson received her B.S. in Geology from the University of New Hampshire, her M.S. in Geology and Geophysics from Boston College, and her Ph.D. in Hydrology and Hydrogeology from the University of Nevada in Reno. She was a post-doc and research scientist at the Harry Reid Center for Environmental Studies at the University of Nevada, Las Vegas, and held faculty positions at Old Dominion University (assistant professor) and The University of Texas at Arlington (associate and full professor) before joining Tulane University. Her research chiefly concerns biogeochemical cycling and speciation of trace elements in the natural waters, with emphasis on the rare earth elements (lanthanide series) and toxic metalloids such as arsenic, selenium, and antimony.

Victor Jones, M.Arch.
School of Architecture
Assistant Professor

Victor Jones received a Bachelor of Architecture degree from California Polytechnic State University, San Luis Obispo and a Master of Architecture from Harvard University’s Graduate School of Design. Before joining the Tulane faculty, Mr. Jones taught at the University of Southern California, the University of California Los Angeles, and Clemson University. His research addresses the application of computer aided manufacturing techniques in architecture with particular focus on parameters of technology with regard to social and cultural variations. In 2002, Mr. Jones initiated the design practice Fievre Jones that is involved in commercial and residential projects throughout the United States and France. The current work of the office focuses on the integration of new digital technologies, specifically computer aided manufacturing in the design and fabrication of architectural projects. Recent projects include an exhibition design for photographer Julius Shulman in Paris and a variety of residential projects in Los Angeles. The work has been exhibited at the Institut de l’architecture in Paris France and has been published in several journals, including AMC Moniteur and Architecture Aujourd’hui.

Michael O. Joyce, Ph.D.
School of Science and Engineering
Visiting Assistant Professor, Mathematics

Michael O. Joyce is a Tulane graduate, class of 2000, receiving degrees in Mathematics and Physics. He received his Ph.D. in Mathematics in 2005 at Brown University, where he also completed postdoctoral work. His research is in the areas of number theory and algebraic geometry. More specifically, Michael studies the behavior of whole number solutions to polynomial equations. Outside of math, he enjoys playing cards, jogging, and reading.

Christopher Kane completed his doctoral work in Philosophy in 2007 at Brown University. He was a Visiting Assistant Professor of Philosophy at the University of Nebraska at Omaha during 2006-2007. His areas of specialization are Epistemology and Metaphysics, and his current research focuses particularly on causation and physicalism.

Todd Kennedy, Ph.D.
School of Liberal Arts
Postdoctoral Teaching Fellow, English

Todd Kennedy earned his Ph.D. in 20th Century American Literature and Film from the University of South Carolina, his M.A. from New York University, and his B.A. from the Virginia Military Institute. The former chair of the South Atlantic MLA’s Hemingway Society, Kennedy has published articles on filmic texts and Bob Dylan, and he is currently working his dissertation into a book tentatively titled Hitting the American Highway: The Ontology of the Hobo-Hero in Twentieth Century American Culture.

Michelle Kohler, Ph.D.
School of Liberal Arts
Assistant Professor, English

Michelle Kohler received her Ph.D. in American Literature from the University of Oregon in 2006. Her dissertation, "Eyesight, Insight, and Literary Form in Nineteenth-Century American Literature," was supported by two University fellowships, and two sections of the project have appeared as articles in scholarly journals. She is currently working on a book manuscript entitled "The Forms
Alexander Kolker, Ph.D.
School of Science and Engineering
Research Assistant Professor, Earth and Environmental Sciences

Alexander Kolker studies the effects of climate variability and human activities on coastal systems. He is engaged in several projects including: examining the interplay between subsidence and sediment deposition in the Mississippi Delta, determining the impacts of sea level change on wetland biogeochemistry, and understanding the influence of large atmospheric pressure systems on sea level variability. He received his Masters (2000) and Doctorate (2005) degrees from the State University of New York at Stony Brook. During this time he studied the effect of climate variability and human activities in the salt marshes surrounding Long Island, New York.

Christopher N. Lawrence, Ph.D.
School of Liberal Arts
Visiting Assistant Professor, Political Science

Chris Lawrence received a B.A. in Political Science from the University of Memphis and a Ph.D. in Political Science from the University of Mississippi. Dr. Lawrence has held previous teaching appointments at Millsaps College, Duke University, and Saint Louis University. His current research is concerned with the effects of citizens' democratic competence on opinion formation and voting behavior.

Nancy Lawrence, Ph.D. candidate
School of Liberal Arts
Visiting Assistant Professor, Philosophy and Women's Studies

Nancy Lawrence will complete her doctorate this year in philosophy at The University of North Carolina—Chapel Hill. Her areas of specialization are the philosophy of logic, epistemology, metaphysics, and feminism, particularly the metaphysics of gender. Her dissertation is on the revisability of logic and its relation to a priori knowledge. In 2006-07, she was a visiting instructor at Wake Forest University.

Stuart Lazar, J.D., LL.M
School of Law
Visiting Associate Professor

Professor Lazar obtained his A.B. (1990) and J.D. (1992) from the University of Michigan and an L.L.M. in Taxation from New York University in 1996. He is visiting Tulane from Thomas Cooley School of Law, where he was the Assistant Director of the Graduate Tax Program. He has also taught at Roger Williams University School of Law as adjunct professor and at Boston University School of Law as Lecturer in the Graduate Tax Program. After his graduation from law school, Professor Lazar worked as a tax associate at the New York law firm of Skadden, Arps, Slate, Meagher & Flom and then as a partner at Edwards & Angell in Providence and Boston. His teaching, research, and writing interests are in the field of taxation.

Rebecca Lehman, Ph.D.
School of Science and Engineering
Postdoctoral Fellow, Mathematics

Rebecca Lehman did her undergraduate work at Princeton University under Wee Teck Gan and Peter Sarnak, and her graduate work at the Massachusetts Institute of Technology under Jason Starr and Izzet Coskun. At Tulane, she is a VIGRE postdoc in the Algebra/Algebraic Geometry group. Her current interests are in the algebraic geometry of curves and moduli spaces.

Denys P. Leighton, Ph.D.
School of Liberal Arts
Visiting Assistant Professor, History

Denys Leighton did undergraduate work in history and German language and literature at the University of Virginia and the University of Freiburg, Germany. He did graduate work at Oxford University and Washington University, St. Louis, where he received a Ph.D. in British and European history in 2000. He is author of The Greenian Moment: T. H. Green, Religion and Political Argument in Victorian Britain (Exeter, UK: Imprint Academic, 2004) and various articles in British, European and American history. He is presently compiling two volumes of contemporary recollections and documents relating to the Oxford philosopher T. H. Green (1836-1882) and William Morris (1834-1896), the socialist, artist and critic, to be published by Pickering and Chatto in 2009. Another area of his work is history of philosophy in the British Empire, ca. 1830-1970, and the construction of the twentieth-century
subdiscipline 'comparative philosophy'. He recently contributed articles to the *Oxford Encyclopedia of Women in World History*. Between 2003 and 2007, Denys taught at the University of Delhi, India.

**Eric Leininger, Ph.D.**  
*School of Science and Engineering*  
*Postdoctoral Fellow, Cell and Molecular Biology*

Eric Leininger received his Ph.D. from the department of Cell and Molecular Biology at Tulane University in 2007. His graduate work and dissertation were on the plasticity of developing hippocampal neurons. He has authored a peer-reviewed publication and received awards for his graduate research. He now studies limb regeneration and development in the Muneoka lab.

**Jill Locke, Ph.D.**  
*School of Liberal Arts*  
*Visiting Associate Professor, Political Science and Murphy Institute*

Jill Locke completed her doctoral work in Political Theory in 2000 at Rutgers University, where her dissertation was supported by a Charlotte Newcombe Fellowship in Ethics. During the 2006-07 academic year, Dr. Locke was a Faculty Fellow at Tulane's Murphy Institute Center for Ethics and Public Affairs. She is contributing co-editor of *Feminist Interpretations of Alexis de Tocqueville* (forthcoming from Pennsylvania State University Press) and writing a book about the relationship between shame and democratic citizenship.

**Courtney Lopreore, Ph.D.**  
*School of Science and Engineering*  
*Visiting Professor, Biomedical Engineering*

Courtney Lopreore received a B.S. in chemistry from Tulane University and a Ph.D. in chemical physics from the University of Texas at Austin. Dr. Lopreore was a post-doctoral fellow at the Salk Institute for Biological Studies and Howard Hughes Medical Institute. Her current research is focused on signal transmission in neurological cells.

**Leandro M. Magnusson, Ph.D.**  
*School of Liberal Arts*  
*Assistant Professor, Economics*

Leandro is a Brazilian born in São Paulo, capital of São Paulo State, Brazil. He received his B.A. and M.A. in Economics from the University of São Paulo. Before starting the Ph.D. program at Brown University, he worked at the Institute of Applied Economics in Brasilia, as a researcher in labor economics. Entering Brown University in 2001, he received his M.A. in 2002 and Ph.D. in 2007. His research field is econometrics.

**Jessica Maier, Ph.D.**  
*School of Liberal Arts*  
*Visiting Assistant Professor, Art History*

Jessica Maier received her doctorate from the Department of Art History and Archaeology at Columbia University in 2006. Her dissertation, "Imago Romae: Renaissance Visions of the Eternal City," was completed with the support of a Predoctoral Rome Prize Fellowship from the American Academy in Rome. Her scholarly interests include Italian Renaissance print culture and city imagery.

**Ryan K. McBride, Ph.D.**  
*School of Liberal Arts*  
*Postdoctoral Teaching Fellow, English*

Ryan K. McBride completed his doctoral work in Philosophy in 2005 at Marquette University with a dissertation on Plato's *Theogony*. He was a Visiting Assistant Professor at St. Norbert College from 2005-2007, where he taught writing-intensive courses including Philosophy of Tragedy and Aesthetics. He is currently working on a book entitled *Plato's Theogony* that works to elucidate the cosmology of the *Timaeus* by describing its connections to an ancient poetic genre.

**Grant McCall, Ph.D.**  
*School of Liberal Arts*  
*Assistant Professor, Anthropology*

**Elisabeth McMahon, Ph.D.**  
*School of Liberal Arts*  
*Assistant Professor, History*

Elisabeth McMahon completed her doctoral work in African History in 2005 at Indiana University, where her dissertation research was supported by a Fulbright Fellowship. After two years as the managing editor of the journal *Africa Today*, Dr. McMahon took a visiting faculty position at the University of Illinois, Urbana-Champaign. Her research explores the creation of community and identity in the post-emancipation Zanzibar islands.
James S. Miller, Ph.D.
School of Science and Engineering
Research Associate Professor, Ecology and Evolutionary Biology

Jim Miller received his bachelor’s degree from Hampshire College in 1976. He received a Ph.D. in 1986 from Cornell University, where he studied the evolution of hostplant relationships in swallowtail butterflies. He then spent a postdoctoral year at the Smithsonian Institution investigating the evolution of moths in the Neotropical subfamily Diopitinae (Notodontidae). These moths are unusual in being brightly colored as adults. Their caterpillars feed on passion vines and nightshades, plants famous as hosts for tropical butterfly groups. Jim then became curator of Lepidoptera at the American Museum of Natural History (1987–1999), where his research continued to focus on systematics of the Diopitinae. He currently holds Research Associate status at both the Smithsonian and the American Museum.

Lisa Molix, Ph.D.
School of Science and Engineering
Assistant Professor, Psychology

Lisa Molix received a B.A. in Psychology and Spanish as well as an M.A. and Ph.D. in Social and Personality Psychology from the University of Missouri-Columbia. Dr. Molix’s dissertation work was supported via funding from the National Institute of Mental Health, the American Psychological Association, and the Society for the Psychological Study of Social Issues. Her current research is focused on health and well-being among members of marginalized social groups and improving intergroup relations.

Michael J. Moore, Ph.D.
School of Science and Engineering
Assistant Professor, Biomedical Engineering

Michael Moore received his B.S. in Biological Systems Engineering from the University of Nebraska at Lincoln in 1999, shortly after marrying his wife Lisa. In 2005, he received a Ph.D. in Biomedical Engineering from the Mayo Clinic College of Medicine in Rochester, MN. His dissertation research, focused on the use of biodegradable scaffolds for spinal cord regeneration, was supported by a Kirschstein National Research Service Award from the NIH. He went on to do postdoctoral work jointly between the Chemical Engineering Department at MIT and the Schepens Eye Research Institute at Harvard Medical School, where his research involved injectable formulations for neurotrophin delivery to the diseased retina. He is currently investigating the use of smart biomaterials for guiding regenerating axons at the optic chiasm. Dr. Moore and his wife and two children live in the Broadmoor neighborhood and are only slightly fearful of hurricanes and floods.

Sadredin Moosavi, Ph.D.
School of Science and Engineering
Professor of Practice, Earth and Environmental Sciences

Sadredin (Dean) Moosavi’s geoscience research focuses on climate change and the biogeochemistry of boreal and arctic wetlands. As a geoscience educator, he focuses on improving the quality of large general education courses, preparation of pre-service teachers and identifying solutions to conflict regarding socially controversial parts of the curriculum such as the geologic time scale and fossil record. His Ph.D. was written at the University of New Hampshire leading to a career at public and private institutions in New England and Minnesota prior to coming to Tulane.

Walter Lee Murfee, Ph.D.
School of Science and Engineering
Assistant Professor, Biomedical Engineering

Walter Lee Murfee received a B.S. in Mechanical Engineering from Massachusetts Institute of Technology and a Ph.D. in Biomedical Engineering from the University of Virginia. From 2005-2007, Dr. Murfee was a post-doctoral fellow in the Department of Bioengineering at the University of California - San Diego. His current research aims to better understand how blood vessels grow in the adult and, in particular, the regulation of microvascular network patterning during pathological conditions.

Angela Naimou, Ph.D.
School of Liberal Arts
Postdoctoral Teaching Fellow, English
Moshe Naor, Ph.D.
School of Liberal Arts
Schusterman Visiting Professor of Israel Studies

Moshe Naor received his Ph.D. in History from the Hebrew University of Jerusalem in 2006. His dissertation was on war and society in Israel focusing on the Jewish mobilization and the home-front in the 1948 War. Dr. Naor was a postdoctoral fellow at the Centre for Military and Strategic Studies at the University of Calgary (2005-06), and the Ray D. Wolfe fellow in Jewish Studies at the University of Toronto (2006-07). His publications and research interests focus on modern Jewish History, Israel Studies, and Middle Eastern History. He is the editor of State and Community (Hebrew University Magnes Press, 2004) and Army, Memory and National Identity (Hebrew University Magnes Press, 2007). His current research deals with the post-war reconstruction of Israeli society in the early 1950s. He taught History at the Hebrew University of Jerusalem and at the University of Toronto.

Matteo Neivert, M.F.A.
School of Liberal Arts
Visiting Assistant Professor, Art

Matteo Neivert received his B.F.A. in Art and Design from Alfred University and an M.F.A. from Tulane University. In 2006, Mr. Neivert was an artist in residence at the Exploratorium Museum in San Francisco where he created two direct cinema animated films and living paintings and sculptures from cyanobacteria and epiphytes. His residency was supported by the James Irvine Foundation and the Alliance of Artists Communities. His teaching experience includes being an Instructor with the ACE program at the San Francisco Art Institute, serving as a part-time Professor of Art at Escuela Cervantes, and a visiting artist for the San Francisco Arts Education Project. Mr. Neivert is currently creating a body of artwork that explores human/animal anthropology, culture, biology, and the failing assumptions of human superiority to nature. Recent solo and juried exhibitions include: Breaking Ice: Bay Area Artists Consider the African Diaspora -ArtworkSF Gallery, Safety Zone -Exploratorium Museum, Fleeting Beauty -Soren Christensen Gallery.

Elizabeth Nowicki, J.D.
Law School
Associate Professor of Law

Professor Elizabeth Nowicki joins the Tulane Law School faculty from Washington & Lee School of Law, where she was Visiting Professor during spring 2007. She visited at Cornell Law School during fall of 2006, and prior to that she was a member of the faculty of the University of Richmond School of Law. A recipient of numerous honors as a student at Columbia Law School, Professor Nowicki also served as Senior Articles Editor of the Columbia Business Law Review. After her graduation from law school, she clerked for Judge Jack Weinstein on the U.S. District Court for the Eastern District of New York and then for Judge James Oakes on the U.S. Court of Appeals for the Second Circuit. She worked as an attorney in the Office of the General Counsel of the Securities and Exchange Commission and as an associate at a major New York and Los Angeles law firm. She has written on securities law topics and on topics related to corporate governance and directors' liability. Her areas of interest include corporate law, corporate "behavior," mergers and acquisitions, securities regulation, and corporate governance.

Tom O'Connor, Ph.D.
School of Liberal Arts
Postdoctoral Teaching Fellow, English

Tom O'Connor received his Ph.D. in English from SUNY Binghamton. His research interests are contemporary poetry, film, and media studies. His first book, Poetic Acts & New Media, was just released from the University Press of America.

Annette B. Oertling, Ph.D.
School of Science and Engineering
Professor of Practice

Annette Oertling obtained her B.S. in Mechanical Engineering from Tulane in May 1978 and subsequently worked for Exxon Company, U.S.A. She returned to Tulane and earned a M.A.T. with a specialty in Math in August 1988, and taught high school for two years. She obtained a Ph.D. in Mechanical Engineering from Tulane in May 2001, and is currently a Professor of Practice supporting the Biomedical Engineering Department and serves as the Director of K-12 Outreach for the School of Science and Engineering. In the latter capacity, she coordinates the Tulane Science
Scholars Program, serves as Fair Director for the Greater New Orleans Science and Engineering Fair, coordinates the FIRST Lego League (middle-school robotics) and FIRST Robotics (high-school) competitions, and serves on the Gulf Coast Math and Science Advisory Board, which is comprised of local industry and academia partnered with school systems to bring research-based curriculum to area schools.

Anthony Oliver-Smith, Ph.D.
School of Liberal Arts
Greenleaf Visiting Professor, Center for Latin American Studies and Anthropology

Anthony Oliver-Smith is Professor of Anthropology at the University of Florida and affiliated with the Center for Latin American Studies and the School of Natural Resources and Environment. He also currently holds the Munich Re Foundation Chair on Social Vulnerability at the United Nations University Institute on Environment and Human Security in Bonn, Germany in 2007-8. Dr. Oliver-Smith has done anthropological research and consultation on issues relating to disasters and involuntary resettlement in Peru, Honduras, India, Brazil, Jamaica, Mexico, Japan, and the United States. He has served on the executive boards of the National Association of Practicing Anthropologists and the Society for Applied Anthropology and on the Social Sciences Committee of the Earthquake Engineering Research Institute. He is also a member of La Red de Estudios Sociales en America Latina and is on the editorial boards of Environmental Disasters, Sociological Inquiry and Desastres y Sociedad. His work on disasters has focused on issues of post-disaster aid and reconstruction, vulnerability analysis and social organization, including class/race/ethnicity/gender based patterns of differential aid distribution, social consensus and conflict, and social mobilization of community-based reconstruction efforts. His work on involuntary resettlement has focused on the impacts of displacement, place attachment, resistance movements, and resettlement project analysis.

Roberto Ortiz, Ph.D.
School of Liberal Arts
Visiting Assistant Professor, Spanish and Portuguese

Z.Z. Packer, M.F.A.
School of Liberal Arts
Visiting Professor, English

Z.Z. Packer has been a high-school teacher and barmaid (though not at the same time). A graduate of Yale University, she received Masters degrees from Johns Hopkins and the Iowa Writers' Workshop and was a Wallace Stegner Fellow and Jones Lecturer at Stanford University. Her collection of short stories, Drinking Coffee Elsewhere was a New York Times Notable Book, winner of a Commonwealth Club Fiction Award and an Alex Award and a PEN/Faulkner Award finalist. Her fiction has appeared in The New Yorker, Harper's and Zoetrope, while her non-fiction has been featured in the New York Times Magazine, the New York Times Book Review and Salon. She has received a Whiting Writers' Award, a Rona Jaffe Foundation Writers' Award and a Guggenheim Fellowship.

Jason Pearcy, Ph.D.
School of Liberal Arts
Assistant Professor, Economics

Jennifer Petersen, Ph.D.
School of Liberal Arts
Visiting Assistant Professor, Communication

Jennifer Petersen completed her doctorate at the University of Texas at Austin in 2006. Her dissertation, "Feelings in the Public Sphere: A study of emotion, public discourse and the law in the murders of James Byrd Jr. and Matthew Shepard," analyzed the political and legal implications of emotional discourse in the mediation of two prominent hate crimes. Her work has been published in Media, Culture and Society, International Journal of Qualitative Studies in Education and in Our Virtual World, an edited collection. She is currently working on a book based on her dissertation.
Gerhard Piringer, Ph.D.
School of Science and Engineering
Professor of Practice, Earth and Environmental Sciences

Prior to his appointment as a Professor of Practice, Dr. Piringer was a visiting professor in Civil and Environmental Engineering and Earth and Environmental Sciences. Dr. Piringer has been teaching courses in meteorology and air pollution modeling, air pollution control, and environmental analysis. His research interests focus on environmental remediation with nanoparticles and on quantifying the environmental impacts of building materials using life-cycle assessments. He holds a masters degree in Engineering Physics from the Vienna University of Technology in Austria and a Ph.D. from Tulane.

Sergei Y. Ponomarev, Ph.D.
School of Science and Engineering
Postdoctoral Fellow, Mathematics

Sergei Y. Ponomarev graduated from the Moscow State Institute of Electronics and Mathematics in 2001 with a B.S./M.S. Diploma in Biomedical Engineering. In 2001 he received an M.A. in Physics at Wesleyan University in Middleton, CT, followed by a Ph.D. in Chemistry in 2007, also at Wesleyan. His current research interests include molecular dynamics simulations of protein-DNA complexes, computational drug design; applied programming, robotics, artificial intelligence and neural networks.

Lawrence R. Pratt, Ph.D.
School of Science and Engineering
Professor and The Herman and George Brown Chair in Chemical Engineering, Chemical and Biomolecular Engineering

Lawrence R. Pratt is a theoretical and computational scientist who focuses on molecular understanding of complex fluid solutions. Of special interest are aqueous solutions in energy, environment, health, and molecular biology problems, even extending to NASA’s follow the water strategy for exploration of our solar system. Pratt received a B.S. (1972) in Chemistry from Michigan State University and a Ph.D. (1977) in Chemistry from the University of Illinois. He was a post-doctoral researcher at Harvard, an Assistant Professor of Chemistry at University of California (Berkeley), but comes to Tulane after many years at Los Alamos National Laboratory in New Mexico. He is probably best known for the molecular theory of hydrophobic effects, the Pratt-Chandler theory initiated with his thesis work, which lays a basis for understanding the stability of biomolecular aggregates in aqueous solutions including membranes and soluble proteins. Examples of recent research are the molecular understanding of the health hazards of inhaled beryllium particulates, and supercapacitors based on nanotube forests.

John Prindle, Ph.D.
School of Science and Engineering
Professor of Practice, Chemical and Biomolecular Engineering

Before joining the faculty at Tulane, John was technical advisor and director of Albemarle Corporation’s Chemical Engineering Fundamentals Laboratory. His 15 years of industrial experience span a broad range of topics including fundamental research, product development, process design, and process safety. Through his techniques for solving industrial problems, John made significant contributions to many of Albemarle’s processes. These contributions resulted in his receiving several patents, corporate technical achievement awards, and corporate research grants. John received B.S. degrees in both chemical engineering and mathematics from Texas Tech University and a Ph.D. in chemical engineering from the University of Wisconsin. He is also a licensed professional engineer in the state of Louisiana and teaches an annual P.E. Exam Review course to chemical engineers working in the New Orleans area. Since joining the department of chemical and biomolecular engineering, John has taught or actively participated in the instruction of more than half the undergraduate program curriculum. His primary research interests include the application of Process Design, Process Dynamics, and Process Control to improve the efficiency of renewable energy processes.
Mary Dawn Pugh, J.D., M.A.
School of Law
Forrester Fellow and Instructor in Legal Writing
Mary Dawn Pugh completed her Juris Doctorate in 2005 at Tulane Law School, after which she practiced law in New Orleans until her appointment as a Forrester Fellow. Prior to attending law school, Ms. Pugh obtained a Masters Degree from New York University in French Studies, and worked for a member of the United States Senate in Washington, D.C.

Andrea Queeley, Ph.D.
School of Liberal Arts
Post Doctoral Teaching Fellow, Latin American Studies

Jesús Ramos-Kittrell, Ph.D.
School of Liberal Arts
Visiting Assistant Professor, Music
Professor Ramos-Kittrell’s scholarship focuses on music from eighteenth-century and contemporary Mexico. More specifically, he considers the performance of ritual and ceremony at the Metropolitan Cathedral of Mexico from 1680 to 1750, and contemporary popular music from the north of Mexico. His archival work in Mexico City emphasizes the importance of music performance within the broader cultural context of religious practices, while his interest in Latin American popular music explores ethnomusicological approaches to the study of music and transnational constructions of identity. Ramos-Kittrell’s research has been recognized by awards from prominent institutions in Latin American studies, such as the Teresa Lozano Long Institute of Latin American Studies at The University of Texas, and the Fondo Nacional para la Cultura y las Artes in Mexico.

Fernando Rivera-Díaz, Ph.D.
School of Liberal Arts
Assistant Professor, Spanish and Portuguese
Fernando Rivera-Díaz received his Ph.D. from Princeton University in 2006. His research on contemporary Latin American narratives focuses on poetics and politics of the novel, and constitution of modern subjects in the Andean Area. Also, he is specialized in literary theory and cultural studies. Dr. Rivera is currently completing a book on the works by the Peruvian novelist and anthropologist, José María Arguedas.

Bethany L. Rollins, Ph.D.
School of Science and Engineering
Visiting Assistant Professor, Psychology
Bethany Rollins received a B.A. in Psychology with a minor in Biology from Ohio University in 1997 and a Ph.D. in Biopsychology with a minor in Animal Behavior from the University of New Orleans in 2005, just weeks before Katrina. After relocating to northern Virginia, Dr. Rollins taught several psychology courses at Lord Fairfax Community College as an adjunct professor.

Brad E. Rosenheim, Ph.D.
School of Science and Engineering
Assistant Professor, Earth and Environmental Sciences
Brad Rosenheim received a B.S. in Environmental Science with a Geology Concentration at the University of Vermont and a Ph.D. in Marine Geology and Geophysics at the Rosenstiel School of Marine and Atmospheric Sciences of the University of Miami. Dr. Rosenheim became a post-doctoral investigator at the Woods Hole Oceanographic Institution in 2005. Dr. Rosenheim’s research has focused on assessing changes in ocean temperature, salinity, and circulation using geochemical techniques applied on short centennial/millennial time scales. Dr. Rosenheim has recently commenced work with a group of researchers aiming to improve the chronology of deglaciation on the Antarctic Peninsula 10,000 years ago.

Urmi Roy, M.A.
A.B. Freeman School of Business
Professor of Practice of Business Administration
Urmi Roy is a Sun Microsystems Certified Java Programmer and worked as a Software Engineer for five years before joining Tulane University. Her areas of expertise include Object Oriented Programming and development of the J2EE architectural framework in a Unix environment. After completing her Masters in English from Calcutta University, India, in 1993, she obtained her Masters in Systems Management from the National Institute of Information Technology, Calcutta, India, in 1995. In the corporate world, she has worked as a Senior Java Application Developer for companies like The Realm in New York, and Entigo Corporation in Pittsburgh. Ms. Roy has also held various teaching positions,
New Faculty: Uptown Campus, 2007-08

Michael A. Sackey, J.D.
School of Law
Forrester Fellow and Instructor in Legal Writing

Michael Sackey received a B.A. in English from the University of Rochester in 1985 and a J.D., magna cum laude, from the Washington and Lee University School of Law in 1997. Prior to joining the Tulane faculty, Mr. Sackey served as a judicial clerk on the U.S. District Court for the Southern District of West Virginia, worked at the Washington, D.C. law firm Arnold & Porter, and taught a commercial law class at The Catholic University of America Columbus School of Law. Mr. Sackey is a member of the Maryland and District of Columbia bars.

Maxim Samarov, D.MA. candidate
School of Liberal Arts
Visiting Assistant Professor, Music

Maxim Samarov is in final stages of completion of his doctoral work in Orchestral Conducting at the Michigan State University. He has previously served as the Visiting Director of Orchestras at Luther College in Iowa and as Assistant Professor of Orchestra and Low Strings at St. Cloud State University in Minnesota. Maxim Samarov has an extensive background both as a conductor and as a cellist with numerous performances in Russia, Europe, Israel, and United States.

He maintains a busy schedule as a string and orchestra clinician and adjudicator.

Thomas A. Sancton, D.Phil.
Honors Program
Andrew W. Mellon Professor in the Humanities

Thomas Sancton grew up in New Orleans and attended local public schools. He graduated magna cum laude from Harvard College in 1971, and in 1978 received a doctorate in European History from Oxford University, which he attended as a Rhodes Scholar. He worked for Time Magazine from 1979 until 2001, serving as a senior editor, correspondent and, most recently, Paris Bureau Chief. In 2002 and 2003, he taught journalism and feature writing at the American University of Paris. Sanction is the co-author of the international bestseller Death of a Princess: The Investigation (1998), and Dear Jacques, Cher Bill (on Franco-American relations in the 1990s; pub. 1998), as well as the author of a memoir, Song for My Fathers: A New Orleans Story in Black and White (2006), and a political thriller, The Armageddon Project (2007).

Isabel Sans, Ph.D.
School of Liberal Arts
Visiting Assistant Professor, Spanish & Portuguese

Isabel Sans completed her doctoral work in Spanish Cultural Studies in 2007 at Arizona State University, with the dissertation “Identity and Globalization Performed by Carnival Theatre”. In Arizona she taught Spanish Language and Literature, and Hispanic American Civilization and Culture. Also, she performed in many productions of the bilingual Teatro Bravo company. Currently, Dr. Sans is working on the book project Carnival, Identity and Globalization, which examines the dialectics of the local and the global as presented in musical popular theatre performances in the years 2000-2007.

Timothy Schuler, Ph.D.
School of Science and Engineering
Professor of Practice, Physics

Timothy Michael Schuler was born in Plymouth, Wisconsin to Michael and Linda Schuler in 1976. In 1995 he moved to New Orleans to attend Tulane University, where he pursued majors in Physics and Mathematics with a minor in Philosophy, graduating with a Bachelor of Science degree in 1999. That summer he began research in the field of soft x-ray spectroscopy and began attending graduate school at Tulane in the field of Physics under the tutelage of the venerable Dr. David Ederer, eventually obtaining his Ph.D. in 2004. Following graduation, he began working as a Research Scientist for Mississippi Polymer Technologies in Pearlington, MS, returning to rebuild the company immediately following Hurricane Katrina. In the summer of 2006 he returned to the Tulane Physics Department, and has since been appointed the position of professor of practice. He currently resides in his adopted hometown of New Orleans.
Eli Shoot, Ph.D.
School of Liberal Arts
Assistant Professor, Music

Eli Shoot holds a Bachelor and a Master in Music Composition degrees from the Juilliard School, and a Ph.D. in Music from Harvard University. He has been a Research Fellow at the Hebrew University in Jerusalem, and his music has been heard at venues and festivals in the US, the UK, France, Germany, Israel and Russia. Shoot's music draws inspiration from the traditions of cantillation and change-ringing, and his research includes theory of musical contour and transformational theory.

Bryan Sigel, Ph.D.
School of Science and Engineering
Visiting Assistant Professor, Ecology and Evolutionary Biology

Bryan Sigel received his Ph.D. from Tulane University in 2007. His research interests intersect the fields of community ecology, conservation biology and biogeography. Recent work focuses on the effects of forest fragmentation on tropical bird communities where he has documented serious bird species declines at La Selva Biological Station, Costa Rica, one of the most well-studied Neotropical field stations.

Steven Sinnott, Ph.D.
School of Science and Engineering
Visiting Assistant Professor, Mathematics

Ashlie Sponenberg, Ph.D.
School of Liberal Arts
Postdoctoral Teaching Fellow, English

Ashlie Sponenberg completed her graduate studies at Queen Mary, University of London (M.A., 1998) and the University of Liverpool (Ph.D., 2002). She taught undergraduate- and graduate-level English at Liverpool, Carlow University (Pittsburgh), and, most recently, York College – CUNY. In 2005, she became editor-in-chief of AMS Press, a scholarly publishing house based in New York City. She is co-editor of Palgrave’s Encyclopedia of British Women’s Writing 1900-1950 (2006) and is currently completing a manuscript on the intersections of modernity and conservatism in the writings of British female political activists between the world wars. Dr. Sponenberg is also an assistant editor of the journal The Space Between: Literature and Culture 1914-1945.

James Jan Sullivan, Ph.D.
School of Liberal Arts
Visiting Assistant Professor, Classical Studies

James Sullivan completed his Ph.D. at the University of Chicago and his B.A. at Columbia University in New York City. His dissertation, “Thucydides Politicus: The Political Dimension of Thucydides’ History of the Peloponnesian War,” was supported by a Mellon Fellowship and supervised by Prof. Danielle Allen.

Xinyu Sun, Ph.D.
School of Science and Engineering
Visiting Assistant Professor, Mathematics

Xinyu Sun was previously a Visiting Assistant Professor at Texas A&M University before coming to Tulane. He received a B.S. in Mathematics from Jilin University in Jilin, China, followed by master’s and doctoral degrees from Temple University in 1995 and 2004, respectively. His fields of study are Algebraic Combinatorics and WZ-algorithm. Outside of Mathematics, Xinyu likes puzzles, computers programming, computer games, outdoor activities, and especially tennis.

Peter Tillack, Ph.D.
School of Liberal Arts
Professor of Practice, Asian Studies Program

Peter Tillack completed his doctoral work in East Asian Languages and Literatures in 2006 at the University of Oregon. In 2006-07, Dr. Tillack was a visiting assistant professor in the Department of Foreign Languages and Literatures, at Loyola University, New Orleans. He is currently working on turning his dissertation into a book, the working title of which is Out of Place: Suburbia and the Advent of Contemporary Japanese Literature.

Elizabeth Townsend-Gard, Ph.D., LL.M., J.D.
Law School
Associate Professor, Law

Elizabeth Townsend-Gard received her B.A., M.A. and Ph.D. from UCLA in European History, and her J.D. and LL.M. in International Trade from the James E. Rogers College of Law at the University of Arizona. In 2005, Dr. Townsend-Gard was a postdoctoral Leverhulme Trust research fellow at the London School of Economics, where she focused her work on the
copyright status of unpublished works in an international context. In 2006, she held a visiting assistant position at Seattle University School of Law. Since 2004, she has been a non-resident fellow at Stanford Law School’s Center for Internet and Society. Her research focuses on the public domain, virtual property, and copyright issues within an academic environment. She is currently working on two books, Copyright and a Scholar’s Work, and The Making of the Great War Generation: A Comparative Biography.

Sasha Turner, Ph.D.
School of Liberal Arts
Visiting Assistant Professor, History

Nandini Vasudevan, Ph.D.
School of Science and Engineering
Research Assistant Professor, Cell and Molecular Biology

Richard Velkley, Ph.D.
School of Liberal Arts
Weatherhead Chair in Philosophy

Richard Velkley received a B.A. in History from Cornell University and his Ph.D. in Philosophy from the Pennsylvania State University. He was formerly professor of philosophy at the Catholic University of America in Washington, D.C. He has held post-doctoral fellowships at the University of Toronto, University of Iowa and Harvard, and has received grants from the NEH and the American Council of Learned Societies. He is the author of two books and numerous articles in the area of Continental European Philosophy since the eighteenth century.

Dr. Alexander Vuving, Ph.D.
School of Liberal Arts
Visiting Assistant Professor, Political Science

Alexander Vuving holds a master’s degree in Political Science, Economics, and Sociology and received his doctorate in Political Science from the Johannes Gutenberg University, Mainz, Germany. From 2005 to 2007, he was a research fellow at Harvard’s Kennedy School of Government. His current research interests include grand strategy making, foreign policy change, Asian security, and international relations theory.

Meena Vijayaraghavan, Ph.D.
School of Science and Engineering
Professor of Practice, Cell and Molecular Biology

Dr. Meena Vijayaraghavan received her Ph.D. in Zoology and Tumor Biochemistry in 1995 with specialization in Environmental Carcinogenesis. She did post-doctoral research at Osaka City University Medical School, Japan, University of California-Davis, and University of Michigan-Ann Arbor. During 1997-2000, she was an Assistant Professor in the College of Science and Engineering at Ritsumeikan University, Japan. She has been a Visiting Assistant Professor in the Department of Cell and Molecular Biology at Tulane since July 2005. Her fields of research experience include environmental carcinogenesis and pediatric nephrology. She teaches general biology to freshman and genetics to sophomore students.

George Wang, Ph.D.
School of Science and Engineering
Visiting Assistant Professor, Ecology and Evolutionary Biology

George Wang received a B.S. in Zoology and an M.S. in Biology from Texas Tech University. He completed his Ph.D. at the University of Louisiana at Lafayette in 2007, supported by a University of Louisiana Doctoral Fellowship. His research interests involve the roles of species interactions as ecological community structuring mechanisms.

Beth E. F. Wee, Ph.D.
School of Science and Engineering
Professor of Practice, Neuroscience

Dr. Beth Wee, Co-Director of the Masters and Undergraduate Neuroscience Programs and Professor of Practice in Neuroscience, earned her Ph.D. in Zoology and Neuroscience at Michigan State University. She completed postdoctoral research at Northwestern University in Evanston, IL and Tulane University, studying circadian and seasonal rhythms in mammals. Dr. Wee’s interests in animal behavior, neuroscience, and neuroendocrinology are incorporated into the classes that she teaches, including Brain and Behavior, Methods in Neuroscience, Behavioral Neuroendocrinology Laboratory, and Service Learning components of these courses. She earned the Newcomb Alumnæ Association’s “Excellence in Non-Tenured Teaching Award” in May, 2006. In addition to her teaching, Dr. Wee advises many of the students majoring in
neuroscience, a major that she helped to create. She co-directs the Neuroscience Masters Program, is a member of the Study Abroad Advisory Committee, the Health Professions Committee, and the Center for Public Service Advisory Committee.

Carmen Weigelt, Ph.D.
A. B. Freeman School of Business, Assistant Professor, Strategy

Carmen Weigelt received her Ph.D. from the Fuqua School of Business at Duke University in 2003 and her MBA from the University of Massachusetts at Amherst in 1997. Prior to joining the Freeman School, she served as assistant professor of management at the Jesse H. Jones Graduate School of Management at Rice University. Her research focuses on firm capabilities, outsourcing, innovation, and acquisition performance.

Andrea J. Wilkes, J.D.
Law School
Instructor, Civil Law Clinic

Andrea Wilkes received a B.A. in English Language and Literature and a J.D. from Vanderbilt University. Before joining the faculty at the law school, Ms. Wilkes practiced labor and employment law and represented both management and unions in private practice. Ms. Wilkes also has public sector experience in the area and during her tenure at the National Labor Relations Board, Ms. Wilkes obtained the position of Deputy Regional Attorney at Region 15 in New Orleans. Ms. Wilkes is licensed to practice in Kansas, Wisconsin, Missouri, Texas and Louisiana.

Michael S. Wilson, Ph.D.
A. B. Freeman School of Business
Professor of Practice

Mike Wilson specializes in leadership, management, and team development, with an emphasis on developing high performance within individuals, teams, and organizations. He has worked extensively with leadership teams in the development of required skills for new initiatives and performance improvement coaching. He has supported senior leaders of corporate, government and not-for-profit organizations. He teaches leadership, teambuilding, organizational behavior, total quality management, and human resource management as a Professor of Management.

Nathan A. Wilson, Ph.D. candidate
School of Liberal Arts
Visiting Assistant Professor, Communication

Nathan A. Wilson is wrapping up his doctoral work in Rhetorical Criticism (expected completion date December, 2007) at the University of Iowa, where his dissertation, "Was that supposed to be funny? A rhetorical analysis of politics, problems and contradictions in contemporary stand-up comedy," is pending review. When completed, he plans to adapt the project to book form.

Patrick Wing, Ph.D.
School of Liberal Arts
Adjunct Assistant Professor, History

Patrick Wing completed his doctoral work in Near Eastern Languages and Civilizations at the University of Chicago in 2007, with a dissertation entitled “The Jalayirids and Dynastic State Formation in the Mongol Ilkhanate.” His research interests include the legacy of the Mongol Empire in the Middle East.

Huimin Xie, Ph.D.
School of Liberal Arts
Professor of Practice, Chinese

Huimin Xie completed her Ph.D. in Applied Linguistics in July, 2007 at Ball State University. She worked as the assistant director of Writing Center in the Department of English at Ball State for three years. Her research interests include Chinese linguistics, second language acquisition, and foreign language teaching methods and material development.

Tomás Ybarra-Frausto, Ph.D.
School of Liberal Arts
Greenleaf Visiting Professor, Stone Center for Latin American Studies

Tomás Ybarra-Frausto is the former Associate Director for Creativity & Culture at the Rockefeller Foundation. His work with the foundation includes the Humanities Residency Fellowship Program, The Recovering and Reinventing Cultures Through Museums Program, The U.S. Mexico Fund For Culture, and Partnerships Affirming Community Transformation (PACT). Prior to joining the Rockefeller Foundation, Dr. Ybarra-Frausto was a tenured professor at Stanford University in the Department of Spanish and Portuguese. He has served as the Chair of the Mexican Museum in San Francisco and the Smithsonian Council,
and has written and published extensively, focusing—for the most part—on Latin American and U.S./Latino cultural issues. In 1998, Dr. Ybarra-Frausto was awarded the Henry Medal by the Smithsonian Institution.

**Myke Yest, Ph.D.**
*A.B. Freeman School of Business*  
*I nstructor, Finance*

Myke Yest received a B.B.A in Finance from Stetson University (DeLand, FL) and an MBA from the University of South Florida (Tampa, FL). In August, 2007, he received his Ph.D. from Tulane University’s A.B. Freeman School of Business. His research focuses on investments and mutual fund management structure. Myke has taught several Finance undergraduate courses, earning Teacher Honor Roll awards in 2002, 2004 and 2007. In addition to his teaching responsibilities, Myke is the Chief Compliance Officer for a local brokerage firm specializing in retirement planning.

**Shiyong Yu, Ph.D.**
*School of Science and Engineering*  
*Postdoctoral Fellow, Earth and Environmental Sciences*

Shiyong Yu earned a Diploma in Geography from the Ocean University of Qingdao. He subsequently received a master’s in Quaternary Geology and Geomorphology in 1997 from Nanjing University and a Ph.D. in Quaternary Geology in 2003 from Lund University. His research lies at the interface between solid-earth Geophysics and Quaternary Geology. Specifically, his interests focus on understanding the complex interactions among the earth’s cryosphere, lithosphere, and hydrosphere at regional and global scales as a function of time. These include his doctoral work on Holocene Baltic sea-level changes and post-doctoral work on crustal rebound in the upper Great Lakes area while with University of Minnesota Duluth. Shiyong’s current work continues this effort on the US Gulf Coast. The methods he uses to tackle these questions are radiocarbon dating of sea-level index points and geophysical modeling.

**Dana Zartner Falstrom, Ph.D.**
*School of Liberal Arts*  
*Assistant Professor, Political Science*

Dana Zartner Falstrom received a B.A. in International Studies from Hamline University, and a J.D. /M.A. with a Concentration in International Law from Boston University. After five years as an immigration lawyer, she returned to academics and received her Ph.D. in Political Science with an emphasis in International Relations from the University of California, Davis. Her current research focuses on the role that domestic legal systems and legal culture play in shaping state attitudes towards international law.
