Cardno® ChemRisk, a scientific consulting company, provides state-of-the-art toxicology, industrial hygiene, epidemiology, and risk assessment services to organizations that confront public health, occupational health, and environmental challenges. Professionals on the Cardno® ChemRisk team have a long-standing reputation for thorough scientific analysis and for sharing results in the peer-reviewed scientific literature. Many of the over 250 papers published by Cardno® ChemRisk scientists are frequently referenced in both litigation and regulatory decision-making. Our mission is to provide creative and scientifically rigorous approaches to answering questions about the human health hazards posed by chemical, biological, pharmaceutical, and radiological agents.

Cardno® ChemRisk is seeking applicants with graduate degrees and training in industrial hygiene/exposure assessment, as well as intern candidates in the process of obtaining a degree.

**Responsibilities include but are not limited to:**

- Conducting literature reviews, and evaluating both current and past scientific literature and government regulations
- Conducting exposure assessments, health risk assessments and industrial hygiene surveys
- Performing limited field work
- Performing database and statistical analyses

**Minimum Requirements:**

- MPH or MS in industrial hygiene or related field
- Excellent written and verbal communication skills
- Excellent analytical skills
- Data analysis and research experience
- Ability to work well in a team environment
- Data management experience
Desired Qualifications:

- PhD in industrial hygiene or related field
- CIH certified
- Field sampling experience

Positions are available in the San Francisco, CA, Aliso Viejo, CA, Boulder, CO, Chicago, IL, Brooklyn, NY, Pittsburgh, PA, Houston, TX, and Washington, DC offices.
