Attached is my reimbursement packet for travel expenses related to the American Physical Society 2016 March Meeting. In it you will find:

- Receipt for Baltimore Harbor Hotel – 4 nights, 3/14-3/18
- Receipt for round trip travel – Southwest Airlines
- Receipts for meals Monday 3/14 through Friday 3/18/16
- Uber receipt for travel from Baltimore Harbor Hotel to BWI Airport, 3/18/16
- Taxi receipt for travel from MSY airport to home, 3/18/16
- Conference badge and abstract, as proof of attendance and presentation

The total of all these expenses is $1,394.61. $200 will be provided for airfare by the GSSA. $300 will be provided for lodging from the SSE Dean’s Office.

The total requested for reimbursement is $894.61.

Please use acct. for remaining $894.61

Thanks,
Jude

Abstract M1.00139: Polymer crystallization in thin films: morphology and physical properties

Authors:
Julie Albert
(Tulane University)

Polymers crystallization has been studied both computationally and experimentally for decades, elucidating many of the mysteries surrounding crystallization kinetics and thermodynamics. However, many unanswered questions remain pertaining to the relationships between crystallization phenomena and material properties needed for specific applications that range from drug delivery and tissue engineering to optical devices and mechanically robust membranes. One of the especially interesting facets of polymer crystallization is the behavior observed when these long chain molecules are spatially confined in thin and ultrathin films. Confined geometry leads to chain configurations, and therefore thermal, mechanical, and optical properties, sometimes far removed from reported bulk values. This project aims to study the phenomena exhibited by linear semi-crystalline polymers in thin films as well as the way in which blending with homopolymers, block copolymers, and novel polymer chain architectures affect morphology, biodegradation, optical, thermal, and mechanical properties.
