| Wednesday, Aug 29, 2018 - 4pm | Insights into Neuronal Kinesin Function from Mutations that Cause Hereditary Spastic Paraplegia | Thomas Huckaba, PhD  
Associate Professor, Department of Biology  
Xavier University | Jones 108      | Earls           |
| Wednesday, Sept 5, 2018 - 4pm | The effects of androgens and sleep on neurodegeneration: brain and behavior   | Rebecca Cunningham, PhD  
Associate Professor of Physiology & Anatomy  
University of North Texas Health Science Center | Downtown SOM-6001 | Derbenev         |
| Wednesday, Sept 12, 2018 - 4pm | TBA                                                                  | Marc Diamond, MD  
Center for Alzheimer’s and Neurodegenerative Diseases | Jones 108      | Robinson         |
| Wednesday, Sept 19, 2018 - 4pm | NO SEMINAR – Yom Kippur                                              |                                                                                                                   |               |                 |
| Wednesday, Sept 26, 2018 - 4pm | NO SEMINAR                                                            |                                                                                                                   |               |                 |
| Wednesday, Oct 3, 2018 - 4pm  | Neuromodulatory signaling in space and time                           | Haining Zhong, PhD  
Scientist, Vollum Institute  
Oregon Health & Science University | Jones 108      | Huang           |
| Wednesday, Oct 10, 2018 - 4pm | Elucidating the neuronal mechanisms that modulate fear intensity      | Jonathan Fadok, PhD  
Assistant Professor, Department of Psychology  
Tulane University | Jones 108      | TBI             |
| Wednesday, Oct 17, 2018 - 4pm | Developmental programming of hypothalamic circuits regulating energy balance  | Sebastian Bouret, PhD  
Associate Professor of Pediatrics  
Children’s Hospital Los Angeles, Univ. of Southern California | Jones 108      | Mauvais-Jarvis  |
| Wednesday, Oct 24, 2018 - 4pm | The Dopamine Synapse                                                   | David Sulzer, PhD  
Professor, Departments of Neurology & Psychiatry  
Columbia University Medical Center | Downtown SOM-6001 | Students Hosted Seminar (Rachel Wise) |
| Wednesday, Oct 31, 2018 - 4pm | TBA                                                                   | Chunlai Wu, PhD  
Associate Professor, Neuroscience, Cell Biology & Anatomy  
LSU Health Sciences Center School of Medicine | Downtown SOM-6001 | TBI/Mostany     |
| Wednesday, Nov 7, 2018        | NO SEMINAR – Sin Nov. 3 - 7                                          | Steve Maren, PhD  
University Distinguished Professor and  
Claude H. Everett, Jr. ’47 Chair of Liberal Arts,  
Institute for Neuroscience,  
Departments of Psychological & Brain Sciences  
Texas A&M University | Jones 108      | Fadok*          |
| Wednesday, Nov 14, 2018 - 4pm | TBA                                                                   | Elliot A. Beaton, PhD  
Assistant Professor and Graduate Coordinator  
Director of the Stress, Cognition, and affective Neuro Lab  
Department of Psychology  
University of New Orleans | Downtown SOM-6001 | TBI/Mostany     |
| Wednesday, Nov 21, 2018       | NO SEMINAR – Thanksgiving                                            | Alcino J. Silva, PhD  
UCLA Distinguished Professor  
Depts. of Neurobiology, Psychiatry &  
Biobehavioral Sciences, and Psychology,  
Director, Integrative Center for Learning and  
Memory Brain Research Institute | Jones 108      | Daniel          |
| Wednesday, Nov 28, 2018 - 4pm | Anxiety and brain morphology are related to poorer visuospatial working memory in a group of children and adolescents at ultra-high risk for developing schizophrenia |                                                                                                                   |               |                 |
| Wednesday, Dec 5, 2018 - 4pm  | Molecular, cellular and circuit mechanisms of memory linking          |                                                                                                                   |               |                 |
