

Tulane School of Science & Engineering Seminars

(Open to the Public)

Compiled by the Science and Engineering Honor Society (SEHS)

/Spring 2018 /

Week of February 19th

Monday, February 19th

“Predictive Modeling of Drug Effects: Learning from Biomedical Knowledge and Clinical Records”

Ping Zang—IBM T. J. Research Center

3:00 PM, Stanley Thomas 302

Computer Science

TBD

Gregory Tschumper—University of Mississippi

4:00 PM, Jones 102

Chemistry

Thursday, February 22nd

“Large-Scale Interference with Graphical Nonlinear Knockoffs”

Jinchir Lv—University of Southern California

3:30 PM, Gibson 126

Mathematics

Friday, February 23rd

TBA

Marie Monfils—University of Texas at Austin

3:30 PM, TBA

Psychology

“UnTIE-ing the Mechanisms Behind Arteriovenous Malformations”

Angela Crist—Tulane University

4:00 PM, Jones 102

Cell and Molecular Biology
