Tulane School of Science & Engineering Seminars
(Open to the Public)
Compiled by the Science and Engineering Honor Society (SEHS)

/ Fall 2018 /

Week of September 3

Wednesday

“Effects of androgens and sleep on neurodegeneration: brain and behavior”
Rebecca Cunningham, PhD – University of North Texas
4:00PM, TU School of Medicine Room 6001
Neuroscience

Friday

“Technological Innovations to Support Patient Centric Health Care Models for Cervical Cancer Prevention”
Nirmala Ramanujam, PhD – Duke University
4:00 PM, Jones 111A
Biomedical Engineering

“Precision Polymer Synthesis to Improve Measurements: From Polyolefins to Densely Grafted Polymers”
Kate Beers, PhD – NIST
10:00 AM, Boggs 240
Chemical and Biomolecular Engineering

“Dust, Diatomite, and Desert Pavement: Detecting Climate Change from Deposition Rates”
Peter Sadler, PhD – UC Riverside
12:00 PM, Room TBA
Earth and Environmental Sciences

Seminar Title TBA
Chris McClure, PhD – The Peregrine Fund
11:00 AM, LBC 203
Ecology and Evolutionary Biology

“Translating Research to Practice: Building on Cultural Practices”
Marva Lewis, PhD – TU School of Social Work
3:30 PM, LBC 201
Psychology
