Tulane School of Science & Engineering Seminars
(Open to the Public)
Compiled by the Science and Engineering Honor Society (SEHS)

/Spring 2018 /

Week of February 26th

Monday, February 26th

TBD
Charles Webster—Mississippi State University
4:00 PM, Jones 102
Chemistry

Wednesday, February 28th

“From Consensus Clustering to K-Means Clustering”
Hongfu Liu—Northeastern University
3:00 PM, Stanley Thomas 302
Computer Science

“Revealing a Gut-Brain Microbiome Connection in Opioid Dependence”
Anne Taylor—University of Alberta
4:00 PM, School of Medicine 5150
Neuroscience

Thursday, March 1st

“Volume and Lattice Point Formulas for Flow Polytopes”
Alejandro Morales—University of Massachusetts Amherst
3:30 PM, Gibson 126
Mathematics

Friday, March 2nd

“Social and Structural Determinants of Maternal and Child Health”
Maeve Wallace—Tulane School of Public Health and Tropical Medicine
3:30 PM, TBA
Psychology

“Systems and Biomedicine and Pharmaceutics: Mathematical Modeling of Tissues and Treatments”
Ashlee Ford Versypt—Oklahoma State University
10:00 AM, Boggs 240
Chemical and Biomolecular Engineering
