Tulane School of Science & Engineering Seminars
(Open to the Public)
Compiled by the Science and Engineering Honor Society (SEHS)

/Fall 2017 /

Week of December 4th

Monday, December 4th

TBA
Jonathan Parquette—Ohio State University
4:00 PM, Jones 102
Chemistry

Wednesday, December 6th

“Acquired Dendritic Channelopathies”
Danial Johnston—University of Texas at Austin
4:00 PM, Boggs 122
Neuroscience

Thursday, December 7th

TBA
Kirill Larin—University of Houston
4:00 PM, Boggs 104
Biomedical Engineering

Friday, December 8th

TBA
Suljo Linic—University of Michigan
10:00 AM, Boggs 239
Chemical and Biomolecular Engineering

“Insights into Fault-Magma Interaction in an Early-stage Continental Rift from Source Mechanisms and Correlated Volcano-Tectonic Earthquakes” and “The Northern Margin of the Terrebone Trough: Quaternary Faulting and its Implications for Coastal Wetland Loss and Subsidence Hot Spots”
Sarah Olivia and Bobola Akintomide
12:00 PM, Boggs 243
Earth and Environmental Science
3:00 PM, Stanley Thomas 302
Computer Science
“The Proteus Phenomenon, Winner’s Curse and Replicability Crisis Oh My! The Wizardry of Trivial Data Clean-Up and Analysis Decisions”
Tammy Greer—University of Southern Mississippi
3:30 PM, LBC 201
Psychology
