Tulane School of Science & Engineering Seminars
(Open to the Public)
Compiled by the Science and Engineering Honor Society (SEHS)

/Spring 2018 /

Week of April 9th

Monday, April 9th

TBD
Davita Watkins—University of Mississippi
4:00 PM, Jones 102
Chemistry

Wednesday, April 11th

“Organizational Principles of the Mesolimbic Dopamine System”
Larry Zweifel—University of Washington
4:00 PM, Boggs 105
Neuroscience

Thursday, April 12th

“Ubiquity of Schubert Varieties”
Venkatram Lakshmibai—Northeastern University
3:30 PM, Gibson 126
Mathematics

Friday, April 13th

“Engineering Static and Dynamic Control of Metabolic Fluxes in E. Coli”
Mattheos Koffas—Rensselaer Polytechnic Institute
10:00 AM, Boggs 240
Chemical and Bimolecular Engineering

“The Effects of Basal Sliding on Glacial Erosion”
Lucas Zoet—University of Wisconsin Madison
12:00 PM, Norman Mayer 200B
Earth and Environmental Sciences

Diversity & Inclusion Committee Spring 2018 Colloquium
Toni Schmader—University of British Columbia
3:30 PM, LBC 202
Psychology

“Learning Skeletal Development from Genetics Diseases”
Yingzi Yang—Harvard University School of Dental Medicine
4:00 PM, Jones 102
Cell and Molecular Biology
