Every effort has been made to present the program schedule as accurately as possible from information available at brochure printing time. We reserve the right to make changes to the program.
Overview

The field of forensic client care and medicine is complex and challenging. Physicians and healthcare professionals must be equipped to serve a broad population base with varying needs and illnesses. This symposium is designed to increase their knowledge, skills, and competence in the areas of evaluating equivocal citizens, conspiracists, and paranoid delusional, false confessions, issues in corrective psychiatry, antipsychotic risk assessment, and neuropsychiatric and cognitive complications of brain surgery. Long-term abductions, the neuroscience of violent behavior, and criminal activity in juveniles.

Educational Objectives

After participating in this educational activity, the participant should be better able to:

- Recognize biomarkers of delusions due to mental illness from examinees with non-psychotic false belief systems influenced by common conspiracist movements.
- Describe the three different types of false confessions, and how and why they happen, and who is at risk for such behavior.
- Define a police interrogation, recognize its various elements, and explain why it is so effective at getting the subject to give criminally incriminating statements.
- Identify and remedy issues specific to inmates with a serious mental illness who are housed in segregation housing units.
- Describe the accuracy of mental health violence assessments using statistical terms.
- Summarize the problem of balancing false positive and false negatives in the context of interventions to prevent violence.
- Describe a strategy for risk mitigation that does not depend on the calculation of risk probabilities.
- Summarize evidence that suggests that psychiatric treatment might mitigate risk.
- Identify possible psychiatric and cognitive complications of brain surgery.
- Discuss the dynamics, the perpetrators, and the survivors of recent long term abduction cases.
- Describe the genetic, neuroendocrinological, psychophysiological, and neurological correlates of violent behavior.
- Explain the reasons why children are used in criminal activity.

Predicted Outcomes

Predicted Changes in Practice as a result of this activity may include the improved ability to:

- Develop a strategy to evaluate and distinguish between examinees with delusions due to mental illness from examinees with non-psychotic false belief systems influenced by common conspiracist movements.
- Develop and implement a quality improvement system specific to a correctional mental health setting.
- Implement best practices for risk assessment and mitigation, and the identification of false confessions.
- Demonstrate increased knowledge of the psychiatric and cognitive complications of brain surgery, the dynamics of long term abductions, the use of juveniles for criminal activity, and the correlates of violent behavior.

Accreditation

Tulane University Health Sciences Center is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians. Participants in this activity who meet the criteria for ACCME accreditation may receive a maximum of 13.25 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Tulane University Health Sciences Center presents this activity for educational purposes only and does not endorse any product, content, possession of or exhibit. Participants are expected to utilize their own expertise and judgment while engaging in the practice of medicine. The content of the presentations is provided solely by presenters who have been selected because of their recognized expertise.

Disclosure

It is the policy of the Center for Continuing Education at Tulane University Health Sciences Center to plan and implement all of its educational activities in accordance with the ACCME® Essential Areas and Policies to ensure balance, independence, objectivity and scientific rigor. In accordance with the ACCME® Standards for Commercial Support, everyone who is in a position to control the content of an educational activity certified for AMA PRA Category 1 Credits™ is required to disclose all financial relationships with any commercial interests within the past 12 months that creates a real or apparent conflict of interest. Individuals who do not disclose are disqualified from participating in a CME activity. Individuals with potential for influence or control of CME content include planners and planning committee members, authors, teachers, educational activity directors, educational partners, and others who participate, facilitate and moderators. This disclosure pertains to relationships with pharmaceutical companies, biomedical device manufacturers, bioethics firms, or other commercial interests as defined by the ACCME®. Any real or apparent conflicts of interest related to the content of the presentations must be resolved prior to the educational activity. Disclosure of off-label, experimental or investigational use of drugs or devices must also be made to the audience.

Physician Competencies

This conference is designed to address the issues of competence in the following areas:

ACGME/ABMS Competencies

- Patient Care and Procedural Skills, Medical Knowledge, Practice Based Learning Improvement, Interpersonal and Communication Skills, Professionalism and Systems-based Practice.

Institute of Medicine Competencies

- Provide Patient and Family Centered Care, Work in Interdisciplinary Teams, Employ Evidence-Based Practice.

Interprofessional Education Collaborative Competencies

- Values/Ethics for Interprofessional Practice, Roles/Responsibilities, Interprofessional Communication and Teams and Teamwork.

Education Objectives

To attend this conference should increase their knowledge, skills and competence in the area of evaluating examinees with delusions due to mental illness from examinees with non-psychotic false belief systems influenced by common conspiracist movements.

Statement of Need

This symposium will provide the physician/health care provider with the most up-to-date findings and best practices necessary to serve clients with forensic health-care needs.

Who Should Attend

- Psychiatrists
- Psychologists
- Neurologists
- Attorneys
- Mental Health Professionals
- Family Physicians
- Allied Health Professionals

Registration

The registration fee includes all educational sessions and materials, buffet breakfast and refreshment breaks. Register online at http://tulane.edu/cce and click on the Forensic Psychiatry conference or complete the registration form and return it with payment to: Tulane Center for Continuing Education, 1430 Tulane Avenue #8451, New Orleans, Louisiana 70112-2699. You may also fax your credit card registration to 504-988-1779.

Written notification of cancellation must be postmarked by March 20, 2017 to cancel this program (a $35 administrative fee will be retained). After that time, no refunds will be issued. Tulane University Health Sciences Center reserves the right to cancel this program if there are insufficient registrations. Full refunds would be made in that event. However, Tulane University Health Sciences Center is not responsible for any related costs or expenses including change/cancellation charges assessed by airlines. If you do not receive confirmation in a timely manner, please call us at (504) 988-5466.

Meeting Site & Accommodations

Westin Canal Place Hotel
100 Rue Iberville, New Orleans, Louisiana 70130
504-566-7066
$249 Single or Double, plus applicable taxes. Mention the Tulane Forensic Psychiatry conference to receive the discounted rate. Reservation Cut-Off Date is March 16, 2017. After this date, rooms and rates are subject to availability. A written confirmation will be sent by the hotel upon request. If you have any questions, please call our office at 504-988-5466 for assistance.
