## EXPLORING JOARA

PHOTOS BY TRACY HANSEN FOR THE NEWS HERALD

Joara staff members welcomed visitors to the Berry Site field day June 20. The annual event is an opportunity for the public to explore the site of Fort San Juan and to learn about the early inhabitants. Speakers presented details about current and past dig-site areas and their findings. Tents were set up with artifacts and pottery pieces that had been discovered at the Berry Site. Demonstrators provided a glimpse into frontier family life and how to load a gun, treat illness with herbal remedies and learn skills to defend the area.
